Forbes

TRAVEL GUIDE

Forbes Travel Guide is the only independent, global rating system for luxury hotels, restaurants and spas. Started as Mobil Travel Guide in 1958, the company created the first Five-Star rating system in the United States. Today, Forbes Travel Guide's incognito inspectors travel the world, evaluating properties based on up to 900 rigorous, objective standards. The company's annual Star Ratings, reviews and daily travel stories help discerning travelers select the world's best luxury experiences.

Read more about Forbes Travel Guide:
www.forbestravelguide.com

Gharieni Group is Brand Official of Forbes Travel Guide

The Gharieni Group is the only spa supplier to have been selected by the prestigious international Forbes Travel Guide as one of its "Brand Officials".

This is because Gharieni's world-class products and excellent customer service in the spa and wellness sector meet the high benchmarks and standards that Forbes Travel Guide uses to evaluate spas, luxury hotels and restaurants. This great recognition reflects our engagement to provide our customers with outstanding service, highest comfort and first-class design.

From initial concept to installation, Gharieni strives to provide clients with a memorable and immersive treatment experience by incorporating multi-sensory components and extensive customization options into its products. The designation by Forbes Travel Guide will reinforce our goal to pay utmost attention to the design details and differentiation of our equipment.

"We are pleased to name the Gharieni Group as the Official Spa & Wellness Equipment Manufacturer of Forbes Travel Guide," said Filip Boyen, CEO of Forbes Travel Guide. "Gharieni's team of experts oversees every step of design and customizes spa tables, treatment beds and more based on client need. The company, which has more than 25 years in the business, puts guest experience at the forefront of its innovative products."

The Gharieni Group

30+ years of innovation and German engineering are the cornerstones of the Gharieni Group's premium global brands.

Today, the group is positioned as one of the most innovative players in the Wellness industry – creating unparalleled guest experiences for the most discerning Wellness seeker. Present in more than 120 countries worldwide, we count as our clients, some of the most prestigious names in the luxury hospitality, medical wellness, resorts, residential and other well-being environments.

Our sustained, dynamic, and exponential growth continues to fuel our expansion, internationally. We are proud of the many awards, and prizes, we have won – and look forward to the continuing development of our business into the Experience and Transformation economies.

Certified Quality

Designed, Engineered & Manufactured in Germany

Each Gharieni product is developed, engineered, designed, and manufactured in Germany — delivering precision, durability, and unmatched craftsmanship.

Quality Management – ISO 13485

Our manufacturing and administration follow a rigorous quality management system, certified to ISO 13485 standards. Every process is continuously monitored and refined, ensuring exceptional product quality and outstanding service — a combination that sets Gharieni apart worldwide.

Why choose a Gharieni bed?

“At the core of our strategy is the outstanding design of our beds, which are not only exceptionally comfortable and luxurious but also ergonomically designed to benefit both the guest and the service provider.”

Unmatched Client Comfort & Ergonomic Design

The spa bed or treatment table is not just another piece of furniture; it is the central element that defines the quality of service and client comfort. Our beds are designed with client comfort as the top priority. They are essential tools that allow professionals to work ergonomically, reducing injuries and improving posture during long hours.

The way a bed is shaped and functions has an immense impact on the therapist. Years of experience and feedback have led to an optimal design that not only enhances therapist efficiency but also reduces fatigue, preserving the quality of their work and well-being over time. We meticulously engineer our beds to minimize unwanted movement and noise, ensuring a tranquil and undisturbed treatment experience. Smooth transitions between bed positions further enhance both client comfort and therapist efficiency.

Exceptional Service & Support

When you choose our beds, you're not just purchasing a product — you're partnering with a team dedicated to your success. We believe that exceptional service is just as crucial as superior products.

Rapid Response:

Our skilled support team is ready to assist you with any issues, ensuring quick and efficient solutions.

Global Accessibility:

Remote support options allow us to resolve most issues.

Easy Support Access:

Each Gharieni bed is equipped with a QR code, enabling easy issue reporting with a simple scan quickly, minimizing downtime.

Our dedicated team provides swift and effective support to ensure your beds perform flawlessly for years to come.

Design & Planning

Today's spaces are evolving — spa, wellness, beauty and medical treatments are no longer separate worlds. Whether you are developing a new concept or upgrading your existing premises, integrating wellness elements into hospitality, medical or cosmetic environments creates unique experiences that attract and retain clients.

At Gharieni, we combine premium design, multifunctionality, and ergonomic efficiency to help you create a space that works seamlessly for both practitioners and guests. Our experts guide you in selecting the right equipment — from multifunctional wellness tables that transition from treatment procedures to wellness therapies, to optimally planned layouts that blend technical requirements with a welcoming atmosphere.

We also consult on cabin sizes, workflow optimization, and power/water installation points before renovation begins, ensuring a smooth process and avoiding costly adjustments later. This service is free when you choose Gharieni equipment.

Visit one of our showrooms, or meet us at a trade show (dates at www.gharieni.de) — and discover how we can help you design a space where wellness and performance meet.

Table Options

Soft Upholstery

In addition to the standard upholstery, tables with this symbol can also be equipped with a significantly thicker, very soft cushioning. Depending on the type of table, this soft upholstery is available with both a PU and synthetic leather cover. The extra-soft upholstery provides an even higher degree of lying comfort, particularly for longer treatment sessions.

Electrical Arm supports

For even more comfort, the arm supports - as well as the height, the back, leg, and foot section - can be fitted with actuators for electrical adjustment. In addition to direct control via pushbuttons on the arm supports themselves, their position can be conveniently saved using the memory function. This can bring the entire table into the preprogrammed position with the push of a button.

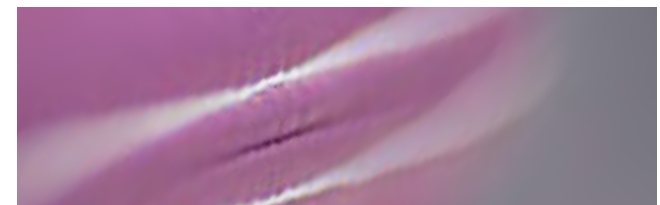

(Multi-)Color upholstery

For the table models with this symbol, two or three colors can be selected from our various trendy colors and combined in a multi-color upholstery. You can find our color charts with the current collection on page 19 of the catalog.

Vibro-Wellness

Vibro-Wellness is a pleasantly massaging vibration system. Ten different vibration motors in the upholstery can be controlled individually via a manual switch. The vibrations work on shoulder (back part), seat, and calves.

Thermo Heating System

The intelligent Thermo heating system is integrated into the upholstery of the table and works with modern microprocessor technology. During the start-up phase, it heats with full power to achieve a comfortable temperature on the surface as soon as possible. Then, it is kept constant until the safety switch automatically turns off the heating after a predefined time. The variable parameters can be set via a programming sequence, which is initiated by a specific key combination. The heating system works with DC and is therefore almost free from electrosmog.

Logo embroidery

Treatment beds with this symbol have the option of having your logo embroidered into the upholstery or the neck rest. Only possible with synthetic leather upholstery.

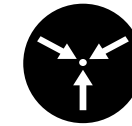

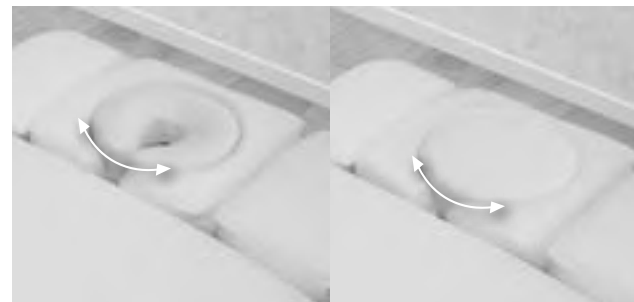

Y-Shaped Headrest

The ergonomic Y-shape adapts to different head shapes—whether narrow or wide—providing secure support and outstanding comfort, regardless of head shape. Optionally available alongside the proven dual headrest.

Dual Flex Headrest

Spa tables with this symbol can be equipped with the new, unique dual headrest. With this version, the face cradles can be swapped between a classic o-shaped and a softer horn-shaped insert.

Multifunctional Headrest

The special headrest holder allows a variety of individual settings thanks to its double-joint system, which can not be achieved with a normal headrest. In conjunction with the separately available head sections, this makes almost every treatment in the head area possible. The following attachments are available:

Crescent headrest

This headrest made of soft, washable PU, is ideal for cosmetic treatments, because the areas of the throat, neck, and shoulders are completely free and can thus be treated comfortably. At the same time, the customer's head is held in a comfortable and stable fashion. Also ideal for permanent makeup and foot care/podiatry!

U-shaped headrest

With washable synthetic leather, soft upholstery. Both headrests can only be used in conjunction with the multifunctional mounting. Ideal for back massages!

Crescent headrest

U-shaped headrest

Table Options

XL Extension

This clever alternative to the conventional headrest allows individual adaptation to each customer: Simply remove the standard headrest and replace it with the XL Extension. This way both slimmer and wider individuals can be treated in a fashion that is ergonomically best for them. This is particularly useful in the massage position because the XL Extension serves as a support surface for the arms. The XL Extension can of course also be adjusted by simply pulling it out. For the Lina, SL XP and SPL Neo treatment beds, the XL Extension is also available with a face cradle! (Not available with soft upholstery!)

Color-XL Extension

The XL extension can of course also come in a color from our current collection, as can the table itself. You can find our color charts at page 19.

Color Basic

Color casing

A treatment bed with this symbol is also available with the base, in addition to the standard white, in titanium-colored casing..

Casing in
titanium

White standard
Casing

Special coating of the metal parts

A special coating of the metal parts in RAL colors is possible in models with this symbol. The colors black-brown (RAL 8022), white (RAL 9016), and titanium (RAL 9007) are included in the table price.

Spa Ambience Light

Present your spa table in the proper light! This symbol indicates tables with hidden LED bar at the base. The indirect lighting creates an atmospheric ambience. With most tables you can choose from eight different light colors as well as an automatic color change at the push of a button.

Multimedia sound system

The sound experience for your table! The built-in audio interface offers a modern interface between many playback devices and your spa table. With the speaker integrated into the table, customers can relax to their own favorite music. At the touch of a button, you can choose between targeted playback on the head area or the entire room. Connection options: Bluetooth, SD card, USB, AUX, and iPhone.

Rotonde

The Rotonde function enables treatment beds to be rotated to the left or right a total 180°. Due to this rotation, the customer can be easily put into the ideal position during treatment. By means of a side lever, the desired position of the table can be determined and also released again. 360° rotation is possible with our hydraulic models. Here the Rotonde function is included for technical reasons.

Castors

Additional castors

Treatment beds with this symbol can be equipped with braked castors. This makes it possible to easily move the table.

Electrically retractable castors

Instead of the mechanical castor mechanism, our spa tables with this symbol are also available with electrically retractable castors. These are controlled via the table's manual switch. That means: Mobility at the push of a button; it doesn't get any easier!

Table Options

Foot switch wired

Depending on the table model, foot switches with different functions can be used.

For certain spa tables, foot switches with memory function are available. These allow you to call up preset table positions in addition to the basic functions such as height or tilt adjustment. With the standard foot switch, only the basic functions can be controlled.

Enveloped by pleasant scents during treatment - with the Aroma Therapy option you can turn your treatment into a wellness experience for all the senses.

Depending on the table model, you can release aromas from one or three integrated fragrance chambers at the push of a button. The fragrances can be exchanged as desired.

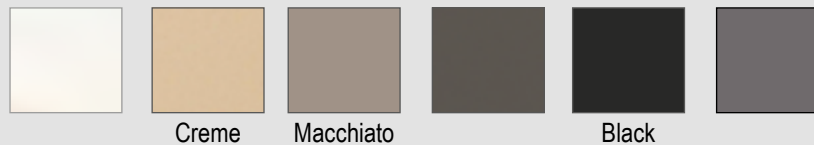

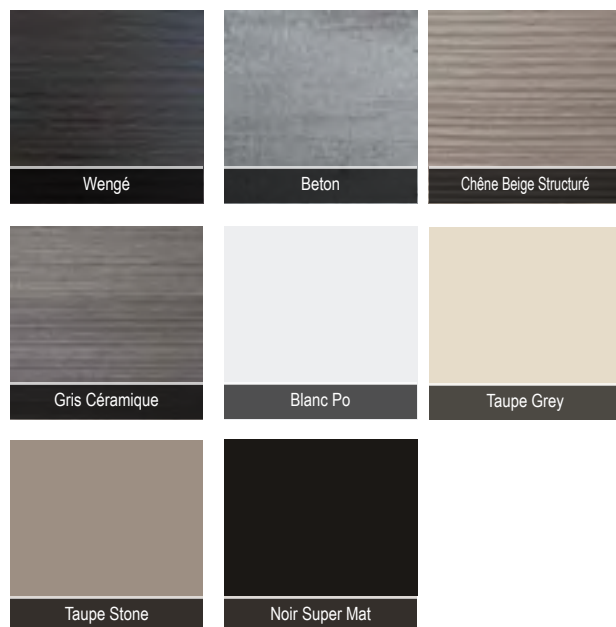

Most of our spa tables are available standard in wenge-pattern or white. For tables with this symbol, you can also select your own favorite decor and before you know it, your table will be a perfect fit for your space! Ask for our current decor palette or visit our website at:

MLX Quartz

Metawell MLX Quartz

The Ancient art of sand bathing, re-invented!

The luxurious design of the MLX Quartz sand bed offers a signature psammotherapy experience that promotes deep relaxation and mind-body recovery—for the ultimate 21st century wellness experience.

As the sand envelops the body in a warm cocoon, feelings of stress melt away. The treatment table can be gently inverted, and the built-in Dynamic Flow massage system eases tensions and boosts circulation. This signature experience offers pain relief to aching muscles and joints, nourishes the immune system, and leaves the individual feeling refreshed, rejuvenated, and peaceful.

The grounding and warming effect enhances the integration of other treatments including massage and the use of sand poultices – creating an extraordinary experience for the guest.

Elevate your clients' experiences with this natural wellness treatment offering a much-needed getaway from the stresses of daily life.

Features:

- Made of real wood
- Filled with alpha quartz sand
- Continuous heating system
- Two lifting columns for height and tilt adjustment
- Storage compartment and two drawers in the base
- Integrated facial surface made of PU padding
- Optional fold-away upholstery overlay for massages

- Height: approx. 65-90 cm
- Length: 217 cm
- Width: 87 cm
- Lifting capacity: 130 kg
- Load capacity of the table surface: 150 kg

The MLX Quartz table comes equipped with two lifting columns that enable users to adjust the height and inclination of the table. This feature ensures safe and effortless operation, as users can control the table from any position using the integrated desk panels and touch display located on the table frame.

The MLX table offers a range of adjustable heights, from 60 to 90 cm, making it ergonomically friendly for the user's back. Furthermore, the table can be inclined to a zero-gravity position, which is particularly effective for massage treatments targeting the back and

shoulder area. Notably, this inclination adjustment creates an ideal stretch that improves spinal health and targets back pain by helping to realign the spine, rehydrate spinal discs, alleviate nerve pressure, relax tense muscles, ease stress, improve joint health and improve flexibility.

Beyond its wellness benefits, the warm alpha quartz sand provides a unique experience that can be customized with personalized color mixes for signature treatments. Additionally, the table's appearance can be tailored to specific preferences upon request.

Quartz mixtures

In addition to the pure quartz varieties, we also offer quartz mixtures with harmonizing additives. Persian blue salt, Himalayan salt or amber can be added to the quartz varieties for a very special wellness experience.

Persian Treasure

Persian blue salt is among the rarest rock salts on Earth and is therefore particularly precious. The salt crystals shimmer in harmonizing, relaxing shades of blue – from delicate aquamarine to dark sapphire blue.

The "color of the sky" is associated with several advantageous effects. The color blue is believed to have a calming and rejuvenating impact on both the mind and body, promoting psychological and physical equilibrium. Additionally, the salt's released ions have a beneficial impact on respiratory health. When combined with natural alpha quartz sand, Persian blue salt adds an elegant and exclusive touch to all treatments.

Blue salt + Standard quartz	€ ---
Blue salt + Golden Rain or Gold	€ ---
Blue salt + Solid Ocean	€ ---

Himalayan Touch

The peaceful microclimate that is often found in mountains, forests, and coastal areas can be simulated in your treatment room by combining Himalayan rock salt and quartz sand. When the quartz salt blend is heated to a desired temperature, salt ions are released, resulting in ionization that enhances air oxygenation. The resulting benefits for both the mind and body include rejuvenation, revitalization, physical relaxation and tension relief, a calming effect, metabolic stimulation, and stimulation of the immune system.

Himalayan salt + Standard quartz	€ ---
Himalayan salt + Golden Rain or Gold	€ ---
Himalayan salt + Solid Ocean	€ ---

Baltic Sunset

The combination of Baltic amber, known as the "Gold from the Baltic Sea," and quartz sand utilizes the calming properties of this unique blend. Amber is recognized for its ability to provide a sense of security, trust, and salvation, and is associated with various benefits, such as spiritual balance, increased energy, regulation of hormones, heightened joyfulness, body detoxification, anti-inflammatory properties (including on the skin), and immune system support. This blend is particularly recommended for a special Signature or Thalasso treatment.

Amber + Standard quartz	€ ---
Amber + Golden Rain or Gold	€ ---
Amber + Solid Ocean	€ ---

Scent diffuser

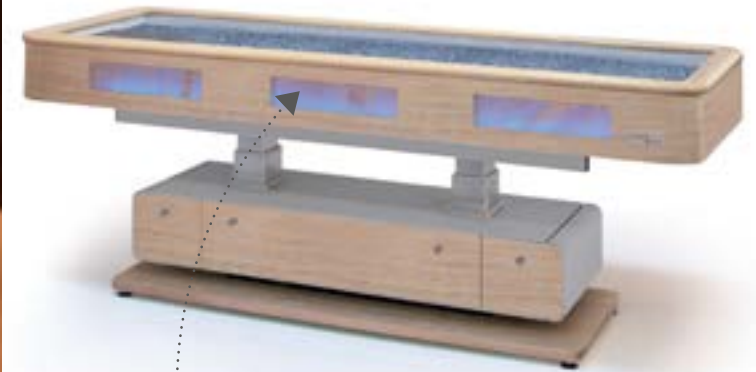

This function provides a fragrant enhancement to the experience, to transport the guest to a realm of heavenly scents and ultimate relaxation. With three integrated fragrance chambers that can be easily controlled via the touch display, each chamber can be filled with a different scent, allowing the creation of unique and ethereal fragrance combinations.

Scent diffuser for aroma therapy

€ ---

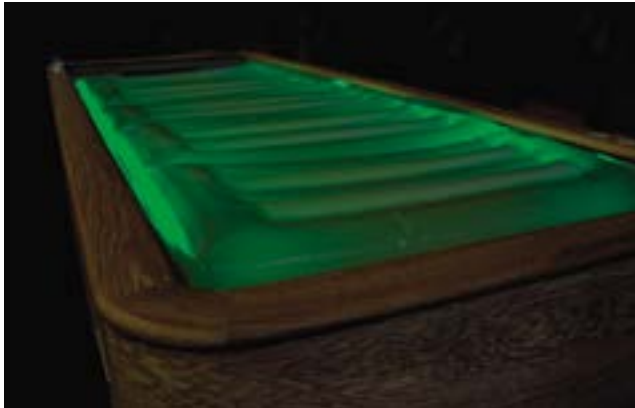

The essential oil feature is easily controlled via the integrated, intuitive touch screen.

Salt tiles

Illuminated and heated salt tiles can be integrated into the sides of the spa table.

Water cushions

Up to 6 water cushions can be placed on top of the sand, ensuring an even distribution of water for a warm, stable and comfortable surface.

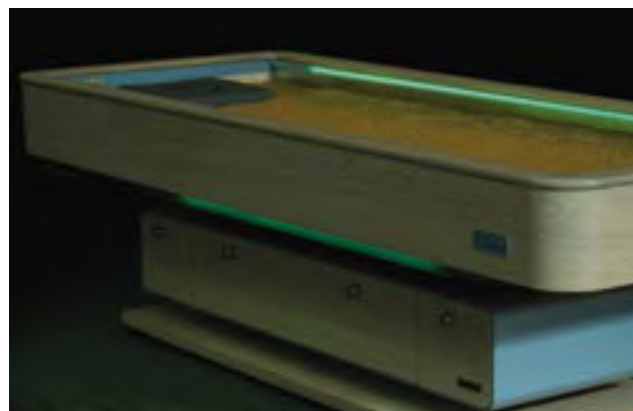

Fold-away upholstery

Effortlessly transforms the sand bath into a fully functional spa table, offering maximum operational flexibility and ensuring optimal use of space..

Cushions and covers

Our exclusive accessory set consists of various cushions and covers. The extensive set allows you to optimize your work perfectly.

Spa Ambience Light

Ambient LED lighting at the base and a subtle inner glow from the lying surface transform the treatment space—enveloping guests in warmth, calm, and visual harmony.

Sand in Motion

Dynamic Flow System

The built-in massage feature

Enhance the treatment experience with the fully integrated massage system, which provides a gentle massage for the neck and back. This system is pre-programmable and features air cushioning that can inflate or deflate to create a wave-like sensation for guests to enjoy simultaneously with a traditional massage or other body treatments.

Dynamic Flow System

€ ---

Dynamic Flow System

An integrated massage system enhances any treatment—whether combined with a traditional massage or another body therapy.

Quartz Poultice

The sand poultices are a great addition to the MLX Quartz as they come in various sizes to allow for diverse heat treatments.

Quartz Poultice Warmer

Large, incl. 10 Quartz poultices

from € ---

Small, incl. 10 Quartz poultices

from € ---

Quartz Poultice Warmer including 10 quartz poultices

The Quartz Poultice Warmer maintains a consistent temperature for the quartz sand poultices. The heating system can be effortlessly managed from the front panel and an LED indicator displays the temperature status. The real wood frames are designed to match the MLX series, adding to the ambiance of your space. The cover aids in efficient heat storage and the larger model can even serve as a tray for the poultices.

Features:

- Table device for keeping the sand poultices warm
- Also suitable for heating hot-stones
- Made of real wood
- In two sizes
- Filled with alpha quartz sand
- Continuously adjustable heating system
- Including four large, two medium, and four small sand poultices
- Practical cover panel to prevent heat loss inside

Quartz Poultice Warmer, large

- Height: approx. 28,5 cm
- Length: 63,5 cm
- Width: 23,5 cm

Quartz Poultice Warmer, small

- Height: approx. 28,5 cm
- Length: 45 cm
- Width: 23,5 cm

Filled with quartz sand

Like the MLX Quartz, the poultice warmer is also filled with alpha quartz sand. This guarantees a uniform and sustainable heat release.

No unnecessary heat loss

The practical cover panel of the device prevents heat loss inside. In addition, it can be used as a practical tray on the large sand poultice warmer.

Welnamis

Waves of Wellness for Mind & Body

Metawell Welnamis

Waves of Wellness for Mind & Body –Press Pause and Relax your Mind

Welnamis is a binaural vibroacoustic technology that trains the brain to relax and benefit from deep relaxation techniques.

Using haptic vibrations and binaural audio frequencies, Welnamis enables even the busiest minds to achieve a deep level of relaxation in just one session. Similar to meditation, binaural sounds paired with music design slow down mental activity, and the vibrational frequencies act on the body's energy centers.

Welnamis delivers symptom-reducing and resilience-enhancing, multi-layered programs via stereo

Features:

- MLW Amphibia Neo Spa Bed
- Soft PU and Aqua upholstery
- Integrated dual heating system
- Illuminated bed surface and sides
- Height, back rest leg & foot section electrically adjustable
- Lowerable arm supports
- Head section can be tilted by +/- 30°
- Stores four pre-set, and 2 customizable treatment positions
- Hand-held control with double click and safety lock function
- Welnamis Binaural Vibroacoustic technology
- Stereo headphones
- 8 transducers
- Touchscreen interface
- Available in different décors and colors

- Height: 54-90 cm
- Length: 202 cm
- Base width: 55 cm
- Table surface width: 85 cm
- (Recommended) lifting capacity: 250 kg
- Load capacity: approx. 300 kg

MLW Amphibia Welnamis

Spa table incl. Welnamis System

Train the busy mind to relax

Enhance mental clarity, mood, and mental focus

Manage stress & anxiety symptoms

Sleep Optimization

Evidence-based binaural vibroacoustic technology

It's all about frequencies

The human brain is a remarkable organ, housing approximately 100 billion neurons that communicate through electrical signals. Despite their minuscule size, current science and technology have not yet advanced enough to detect individual neuron activity at such a detailed level.

Nevertheless, existing technology enables scientists to observe overall patterns of brain activity, providing insights into how neurons within the brain fire at any given moment. This collective brain activity exhibits a rhythmic pulse, akin to the functioning of the heart. These pulses, known as brainwaves, occur at various speeds, indicative of different mental states.

For instance, during deep sleep, the brain pulses approximately three times per second, while during intense concentration, it may pulse up to 50 times per second. Different frequencies of brainwaves have been associated with distinct "states of mind." Slower brainwaves evoke a sense of relaxation and introspection, whereas faster brainwaves can signify heightened concentration or stress.

All Welnamis Wellness programs have been thoughtfully crafted to stimulate various states, ranging from activation and relaxation to meditation and sleep.

Synchronization of brain waves using Audio- and VibroAcoustic stimulation

Binaural sounds (with both ears) are a psychoacoustic phenomena that is perceived when two sounds with slightly different frequencies are applied separately to each ear.

The brain automatically generates a third frequency, which results from the difference between the two original carrier frequencies. With the help of these frequencies it is now possible to specifically influence the different frequency ranges in the brain, as the neurons automatically try to adapt to the external frequency.

These sound frequencies, when precisely delivered, create synchronizations between the left and the right hemispheres of the brain. This process is called brainwave entrainment.

These binaural sounds are embedded in relaxing, specially composed music and work in a frequency range that is not perceptible to the human ear.

The second important feature of the Welnamis experience is the technology of pure synchronized sinewaves that are delivered through tactile transducers embedded in the surface of the spa table. Perceived as gentle vibrations which affect the energy centers of your body, this sinewave frequencies multiply and accelerate the brainwave entrainment process.

Welnamis offers a complete experience of impulses from audio and vibrational frequencies to calm the body and mind and bring both into a relaxed state.

RLX BrainGym™

Mental Fitness Lounger

Metawell RLX BrainGym™

Think of it as a Gym for your Brain

RLX BrainGym™ (formerly RLX Satori) is a zero-gravity lounger with powerful, evidence-based technology to train your brain to relax, recharge, and reset. Through patented binaural vibroacoustics, tactile sound, and synchronized binaural audio frequencies, it guides brainwave patterns into states of deep relaxation, meditation, deep sleep, and heightened focus. With 40 targeted programs, BrainGym™ supports mind-body recovery and longevity through mental clarity, sleep optimization and behavioral change.

Much like meditation, it synchronizes body and mind, without any effort. This unique combination of mental and physical stimulation has been clinically proven to reduce the symptoms of stress and anxiety— while also helping individuals develop healthier neural pathways and sustain calmer, more balanced lives.

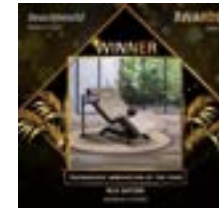

Trusted by leading hotels, wellness and longevity centers, clinical health facilities, therapy and rehabilitation clinics, this mental fitness lounger is also versatile in design and application. Equally at home in a luxury spa lounge, a doctor's office, or as a touchless wellness treatment in private residences, it delivers a complete mind-body recovery with transformative power and impressive results.

Features RLX BrainGym™:

- Electrically adjustable to zero gravity position
- Integrated Smart Thermo heating system
- 4 Tactile Sound Transducers
- Neck Support Cushion
- Headphones and tablet with stand

- Access height: 42 cm
- Projection length: 190 cm
- Width: 70 cm
- Load capacity of the table surface: 160 kg

Options

	Metal parts in special color (white, titanium, sand, gold, bronze, dark brown or black are included in the price of the table)	€	---
	Frame with wood decor surface frame (Walnut)	€	---
Color upholstery:			
	Synthetic leather standard, per color	€	<i>incl.</i>
	Synthetic leather Ferrari Stamskin Top, per color	€	<i>incl.</i>
	Synthetic leather Ferrari antibacterial coated, per color	€	---

RLX BrainGym™

Mental Fitness Lounger

from € ---

Multi-award winning Wellness Technology that restores balance to body & mind

Longevity treatment for low-energy, sleep optimisation, stress & anxiety

Supports behavior change, weight loss & addiction recovery

Calm your mind & train your mental fitness

The Technology

All BrainGym™ programs utilize audio vibrations, or sine waves, embedded into a multilayered sound technology called Quantum Harmonics™.

These sound frequencies, when precisely delivered, create synchronization between the brain's left and right hemispheres.

This hemispheric synchronization results in a quieting of the mind, allowing deep relaxation, meditation, and dreamless sleep to occur.

Through repeated use, this entrainment process allows new neural pathways to be created, promoting lifelong behavior changes.

The BrainGym™ Programs

RLX BrainGym™ Mental Fitness Lounger opens the door to nine unique modules, each offering 2–6 immersive programs. In total, you'll find 40 carefully designed experiences (quantum harmonic audio treatments), including five voice-guided sessions that lead you step by step towards your desired outcomes.

An additional demo program introduces you to the power of brain entrainment through the BrainGym™ technology.

The relaxation and meditation programs are designed to guide your brainwaves into restorative alpha and theta states, promoting deep calm and mental well-being. For sleep optimization, specialized programs help you reach rejuvenating delta states. There's even a module that stimulates gamma brainwaves, associated with focus, peak performance, and heightened awareness.

RLX Aurasens

Experience Lounger

Metawell RLX Aurasens Experience Lounger

A Journey for your Senses

Discover a world where deep relaxation transforms into adventure—this is no ordinary lounger, but a vessel of discovery. As immersive haptics flow through your body, the elements awoken within you—only your imagination sets the boundaries.

Choose your journey. Dive into the depths of water, rise with the freedom of air, ignite the fire of your senses, or reconnect with the grounding energy of earth. Experience the profound resonance of a singing bowls ritual—so moving and authentic, it feels real, surrounding you in waves of pure vibration.

Select from curated wellness and massage journeys, or play your own music and be transported to the energy of a live concert, the intimacy of a jazz club, or the sweeping sound of your favorite movie soundtrack. With every program, the landscapes of your imagination awaken, guiding you deeper into transformation.

At the heart of the RLX Aurasens lies patented technology: 28 tactile sound transducers woven seamlessly into its design, each precisely placed to deliver pure, immersive resonance. Slip on the headphones, sink into the zero-gravity lounger, and surrender to the orchestration of your adventure—all easily controlled with an iPad.

Features RLX Aurasens:

- Equipped with 28 transducers
- Includes iPad Mini with stand
- Easy-to-clean synthetic leather upholstery
- Adjusts electrically to zero gravity position
- Built-in USB port
- Neck Support Cushion
- Noise-cancelling headphones Includes audio cable with 3 ports (USB-C, AUX Jack, Lightning)
- International voltages available 100-240v 50-60hz

- Access height: 42 cm
- Projection length: 190 cm
- Width: 70 cm
- Load capacity of the table surface: 160 kg

The Experience Lounger

from € ---

The Programs

WELLNESS

The Wellness program incorporates four distinct modalities inspired by the classical elements:

'Fire' (stimulating), 'Water' (calming), 'Earth' (stabilizing), and 'Air' (invigorating).

These modalities can be experienced individually or combined in four pre-programmed sequences designed to provide a holistic wellness experience.

MASSAGE

Enjoy a variety of massage options with four dedicated programs: 'Bloodflow' for circulation, 'Siesta' for relaxation, 'Spine' for back relief, and 'De-stress' for overall well-being.

For a more comprehensive experience, choose from four additional combination programs that blend all our massage techniques.

MUSIC

Lets you seamlessly connect your audio device or smartphone, delivering an immersive 360-degree sound experience that brings your music to life.

From your favourite artist, to your most loved movie soundtrack, binural beats or singing bowls track, the possibilities are absolutely endless!

DEMO PROGRAM

This demonstration will provide a comprehensive overview of how our cutting-edge technology functions.

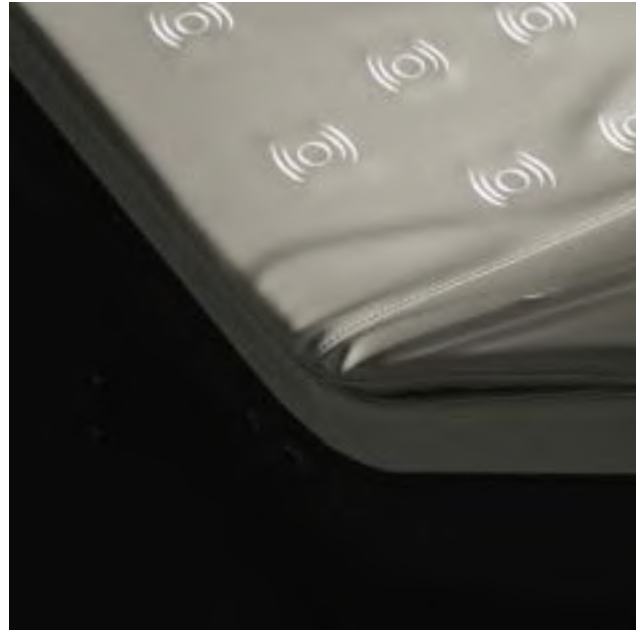

We will delve into the intricacies of each of the three modules, showcasing their capabilities through a series of diverse examples.

This will allow you to fully appreciate the power and potential of our revolutionary audio-haptic experience.

The Technology

The unique patented technology includes powerful transducers that are integrated into the lounge and controlled by the AURASENS module. The position of each transducer in the upholstery is marked with embroidery, to ensure the perfect position for the optimal transmission of sound and vibration.

Wearing headphones, you're completely immersed in the sensations of the Gharieni AURASENS module while lying on the RLX Experience lounge. All programs are controlled with an iPad.

Unlimited and personalized experiences

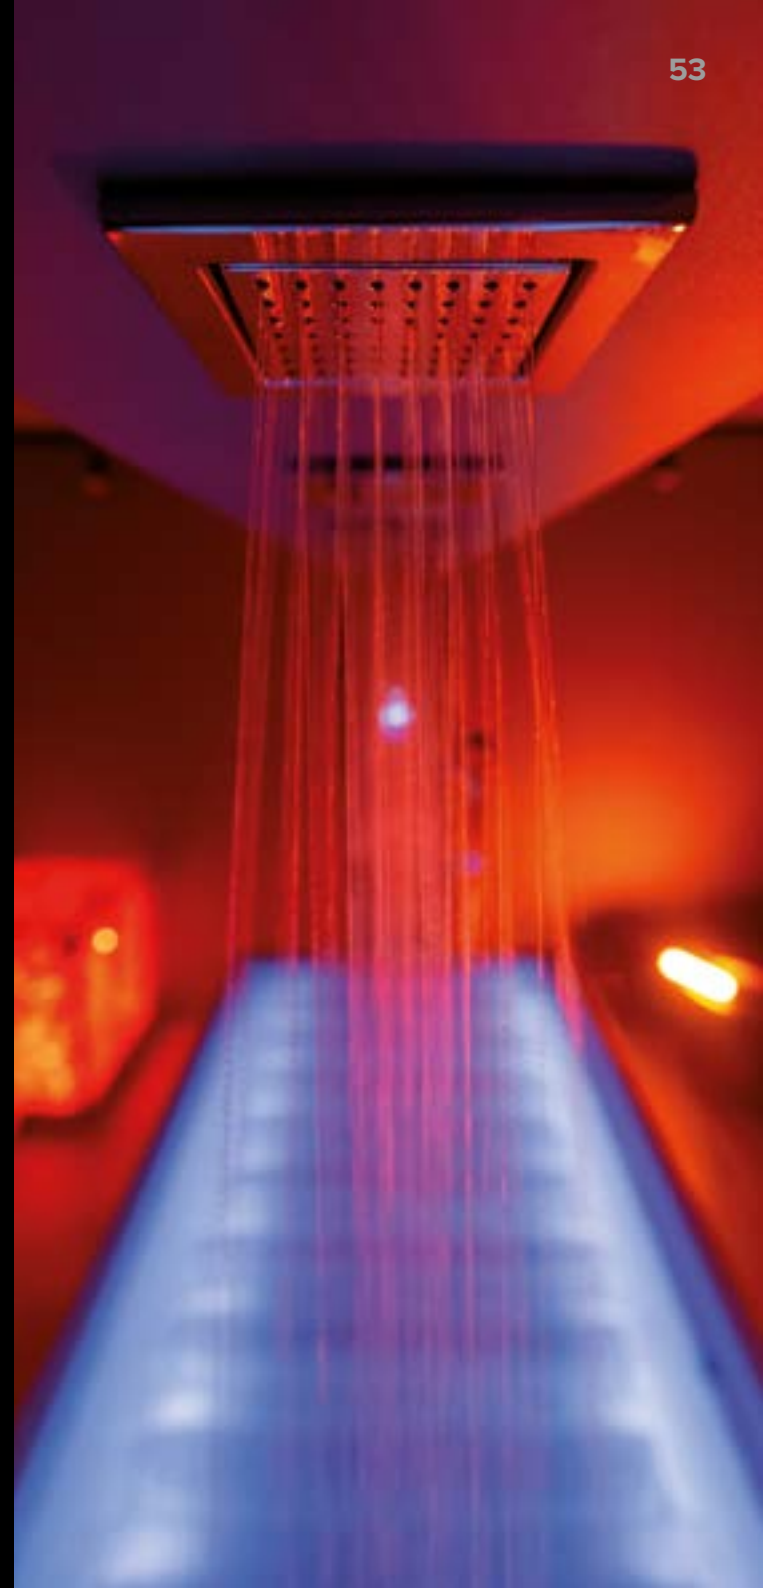

The Elements Luxury Boutique Spa Romania

Augmented Massage

Ahead of its Time

Metawell Augmented Massage

Defying the boundaries of Human Touch

The Augmented Massage completely redesigns the massage experience, for both therapist and client. Real-time sounds and panoramic soundscapes turn a classic wellness experience into an extraordinary live performance.

The groundbreaking motion-to-sound medium, is an unfiltered expression of human energy and the ultimate NOW experience. Sensors follow the therapists movements, triggering a symphony of natural sounds released through surrounding multi-channel speakers. Water, wind, birds, crackling stones — even a gong, rise and fall in real time — echoing every gesture with immersive, full-body resonance.

This is the ultimate fusion of Technology and human touch, delivering a bespoke and perfectly orchestrated experience — everytime.

A massage that conducts it's own music

At the forefront of innovation, Augmented Massage creates a symbiotic relationship between guest and therapist.

The harmonious fusion of movement and sound takes the guest on a journey of augmented relaxation. This unique alignment not only enhances their experience, but additionally allows the therapist to elevate their artistry.

Each gesture becomes a part of a musical masterpiece, thoughtfully and intuitively choreographed, setting the pulse and rhythm of an unforgettable experience.

Features:

- Computer-controlled IR sensor
- Bose sound system with 9 speakers
- High quality sensor arm
- Real time monitoring display for easy use
- Stand alone plug and play – no additional room installation needed
- Actuators for adjusting the height, back, leg, and foot sections
- Swiveling and lowerable arm supports
- Hand-set control with safety-locking feature
- Quilted PU upholstery
- Standard upholstery color: white or choco. (Other colors from our color collection for an additional charge)
- Optional LED lighting strip for base lighting

MLX i³Dome

Sports Recovery & Triple-Detox

Metawell MLX i³Dome/iDome

Next-Gen Wellbeing Solution

Step into a new era of wellness recovery and detoxification.

A powerhouse that combines three highly effective methods, to recharge and revitalize body and mind: Far infrared therapy, plasma therapy and light therapy.

The advanced technology targets deep tissue and promotes the removal of harmful toxins from the body. This evidence-based detox treatment leaves you feeling re-energized and refreshed with a noticeable improvement in well-being.

MLX i³Dome is ideal for athletes to support recovery after intense training sessions, penetrating deep into the tissue to reduce inflammation and promote muscle recovery.

Features:

- FIR technology
- 4-zone FIR heating system (3 in the dome and 1 in the lying surface) with timer & automatic switch-off safety function
- FIR heat intensity can be adjusted separately (in both parts of the dome and in the lying surface)
- Height-adjustable and tiltable (electric version only)
- Simple adjustment of the dome with gas pressure springs
- Storage compartment and two drawers in the plinth
- Headrest extension and neck support cushion
- 2 sets of towelling bed linen and dome curtains
- International voltages available 100-240v 50-60hz

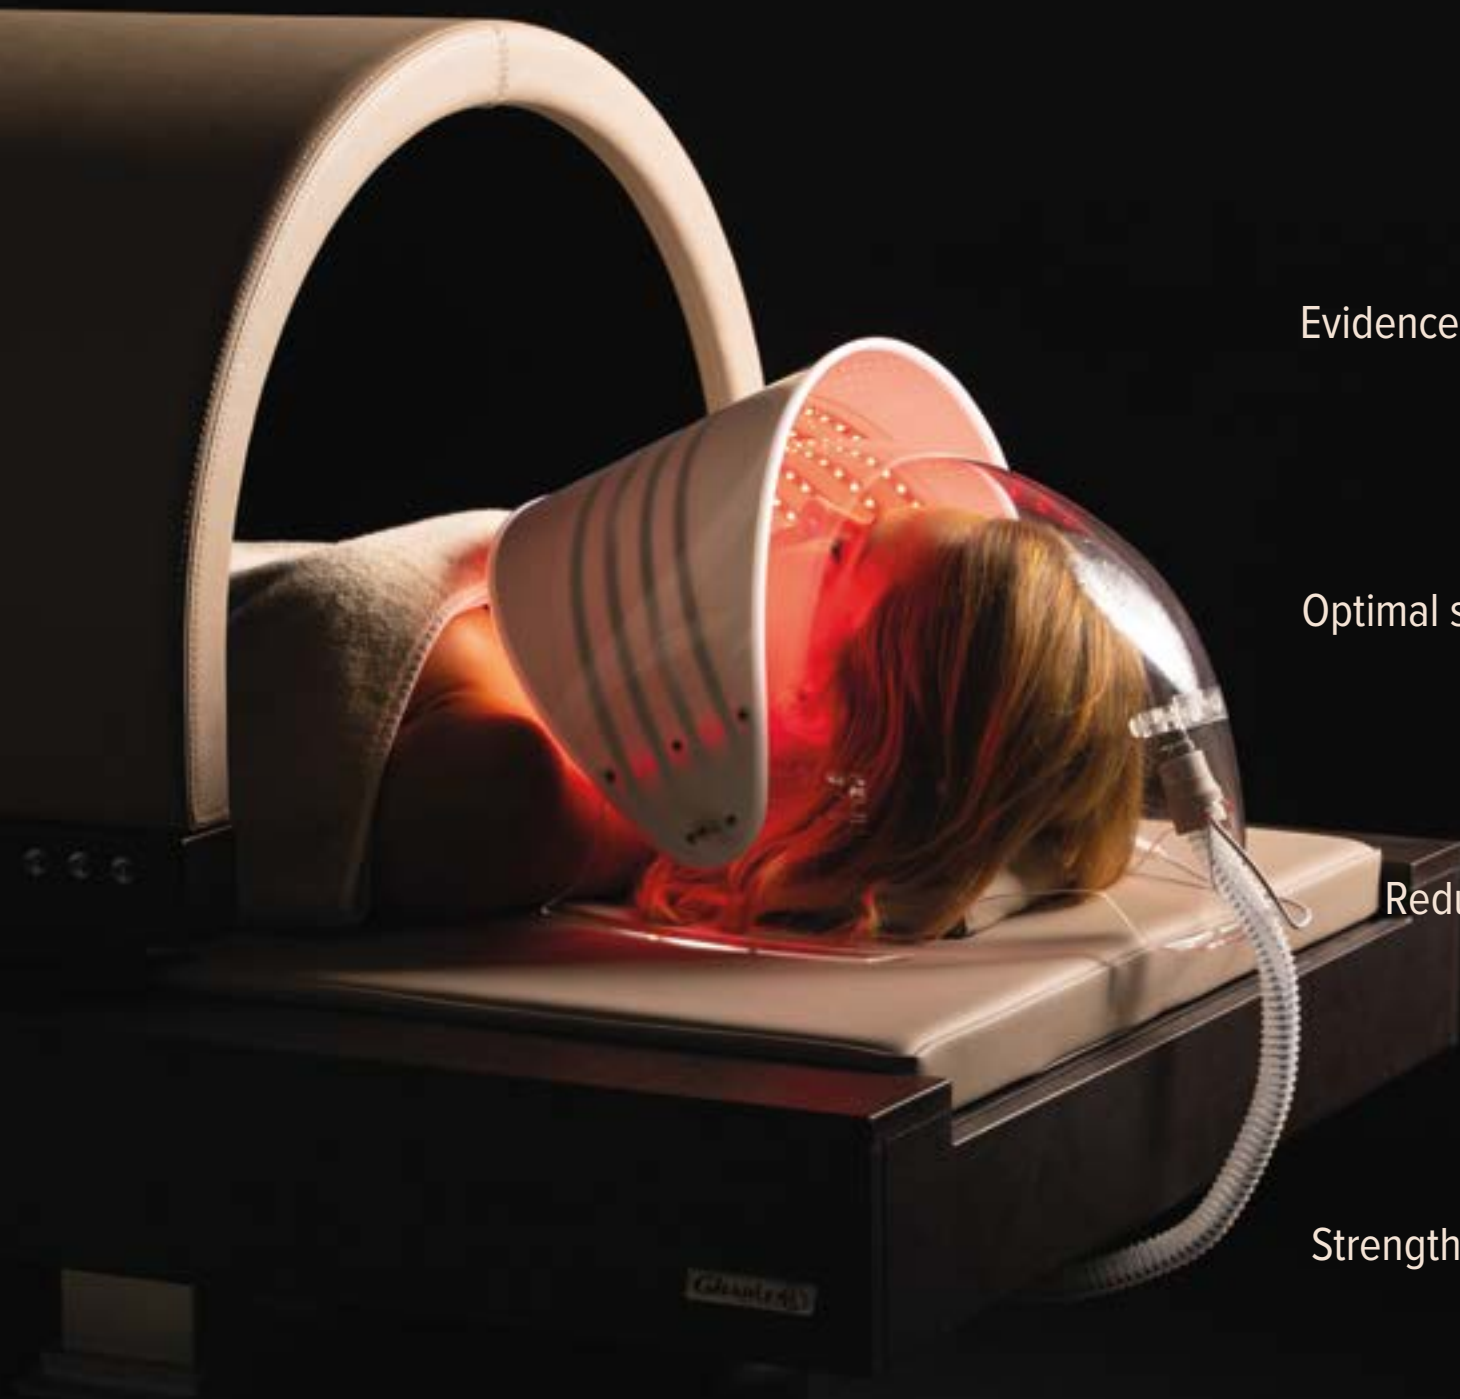

Lying surface extension

-  Table surface height: approx. 53-83 cm (electric version) 53 cm (static version)
- Length: 225 cm (245 cm with extension)
- Total width: 90 cm
- Width lying surface: 70 cm
- Lifting capacity: 300 kg
- Load capacity of the table surface: 350 kg

MLX iDome	
With electric adjustment	from € ---

Plasma Light Therapy Device	
integrated in base	+ € ---

A new era of recovery & detox

Evidence-based individual Far-infrared sauna

Optimal sports recovery after intense activity

Reduce symptoms of stress, anxiety and depression

Strengthen immunity, energy and well-being

Far Infrared-Treatment

Far Infrared

Far Infrared (FIR) light is a crucial element of sunlight that sustains life on earth. Although invisible to the human eye, these longer wavelengths of light carry powerful natural benefits beyond what we perceive as visible light.

The Far Infrared dome is an advanced detox and recovery wellness bed designed to promote longevity and deliver targeted anti-inflammatory benefits. Its four-zone FIR heating system allows each area to be individually adjusted, creating a highly personalized approach to regenerative wellness.

Advantages

- Optimizes sports recovery
- Removes harmful toxins including heavy metals from the body
- Supports Mental-Wellbeing
- Boosts immunity and energy levels

Light Treatment

Scientifically proven and effective

Red, blue, and green light each operate at distinct wavelengths, targeting specific concerns to create a versatile approach for both wellness and aesthetic treatments. The benefits of these light therapies are further enhanced by the presence of negative ions, amplifying their restorative effects.

Advantages

RED LIGHT (625-335 nm)

- Stimulates collagen production and enhances cellular regeneration for healthier, more youthful looking skin
- Promotes blood circulation and relieves inflammation
- Supports mental well-being
- Energizes and promotes vitality

GREEN LIGHT (525-535 nm)

- Skin brightening: targets pigmentation including age spots and sun damage
- May help with stress-related tension headaches.
- Supports recovery after cosmetic procedures by reducing redness and calming the skin.
- Harmonious, regenerating and soothing

BLUE LIGHT (475-485 nm)

- Combats acne-causing bacteria, reducing breakouts, redness and inflammation
- Helps manage oily skin.
- May improve alertness and concentration during the day, especially in people with disrupted sleep patterns.
- Cooling, calming, soothing and cleansing.

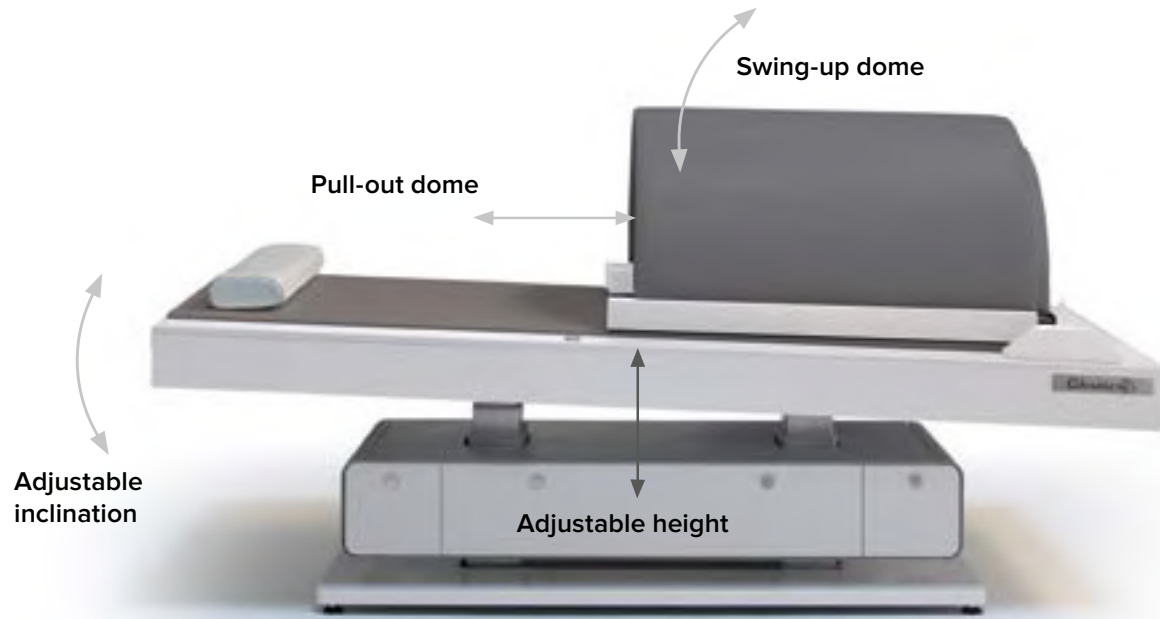

Plasma Treatment

For problematic skin, anti-aging and revitalization

Plasma therapy is an innovative method for cosmetic treatments, allowing exposure to the energy of oxygen (O₂) in the form of electrically charged negative ions.

Advantages

- Maintenance of healthy skin
- Visible improvement of sensitive skin
- Increase of suppleness & vitality
- Supports metabolism

The MLX iDome features height adjustment with a low entry point. For easy access, the dome can be lifted and extended.

Upholstery extension

The lying surface can be extended by 20 cm, enabling tall clients to assume a comfortable lying position.

Neck cushion

For improved ergonomics, the MLX iDome features separate neck supports, to complement the luxuriously cushioned lying surface.

Tension strap for towels

A towel-cover can be attached to the open side of the dome with a strap. This will ensure the optimal heat inside the dome.

Ample storage space

The base of the bed includes two side drawers and a central fold-down compartment for convenient storage.

Clinique La Prairie Health Resort
Anji, China

G-Vac

Body Shaping & Rejuvenation

Metawell G-Vac

Wellness Beyond Gravity

Step into a breakthrough wellness innovation that redefines traditional lymphatic drainage treatments. G-Vac combines technology pioneered by NASA with evidence-based wellness to unleash a new dimension of aesthetics, remedial recovery and well-being.

All treatment programs take advantage of conditions to support the body's natural ability to restore balance.

Positioned as a powerful longevity treatment, G-Vac provides a multitude of benefits by promoting lymphatic flow and optimizing blood circulation. In addition to visibly reducing the appearance of cellulite and spider veins, it helps with recovery after exercise and relieves swelling and fatigue in the legs and feet.

Features:

- Electrically adjustable backrest
- Touchscreen can be equipped with an additional card reader
- Certified quality according to ISO / EN
- TÜV-tested, with CE marking

- Total height: 140 cm
- Length: 220 cm
- Total width: 87 cm
- Width lying surface: 57 cm
- Load capacity of the table surface: 180 kg

Metawell G-Vac

Complete

from € ---

The Programs

G-Vac treatments can be customized with targeted treatment programs and specific pressure settings.

All programs include “Basic” and “Advanced” modules.

Figure Training

Combines lymphatic drainage, detoxification, skin firming and tightening. Reduces the appearance of cellulite and spider veins.

Regeneration & Performance

A great option for athletes after intense sporting activities to aid recovery (including DOMs), support the prevention of musculo-skeletal injuries, and optimize athletic performance.

Health & Vascular Training

Passive exercise for the vascular system to promote circulation, reduce swelling and relieve “heavy”, aching legs and feet.

Wellness & Vitality

Lymphatic drainage, and improved blood circulation amplified by the release of nitric oxide (NO) for vitality and well-being.

Cellulite Under Pressure

Cellulite occurs when fat deposits push through the connective tissue under the skin. Toxins and metabolic waste products are stored in the fat cells and can only be removed via the lymphatic system. As the lymphatic system does not have a pump – like the heart in the cardiovascular system – the flow of lymphatic fluid is primarily dependent on the activity of the skeletal muscles. This function is impaired if the connective tissue under the surface of the skin is weak – even during physical activity.

Initial tests have confirmed the effectiveness of negative pressure treatment against cellulite.

Beauty Beyond the Surface

G-Vac offers the opportunity to achieve a renewed sense of confidence by reducing cellulite, tightening the hips and thighs, and smoothing the skin. A relaxing, non-invasive treatment that enhances your natural beauty from within.

The results speak for themselves:

- significant reduction in thigh and hip circumference
- reduction of spider veins
- reduction of orange peel skin
- reduction of skin dryness
- improved skin tone
- reduction in the feeling of 'heavy legs'

Optimized Well-being

Beyond the physical, G-Vac embodies the essence of well-being by promoting vitality and energy. Regardless of lifestyle or profession, users can expect to improve holistic well-being.

Recovery

Travel enthusiasts, frequent flyers and sedentary professionals such as office workers or truck-drivers, can all benefit from G-Vac's enhancement of blood and lymphatic circulation — helping reduce the symptoms associated with prolonged inactivity.

In the elderly population, issues related to blood circulation and lymphatic flow become more frequent. G-Vac also serves as a remedial treatment to support these individuals.

For athletes or active people, G-Vac offers a unique advantage in supporting muscle recovery after intense activity.

The Technology

Technology pioneered by NASA

The benefits of intermittent vacuum therapy (IVT), or negative pressure body therapy (NPBT), are scientifically and clinically well-documented. The technology behind G-Vac is used by NASA in manned spaceflight to maintain blood circulation in the lower body of astronauts in the absence of gravity.

The lower body is gently compressed and decompressed in the G-Vac chamber using a controlled suction and pressure action. This alternating cycle stimulates blood circulation and promotes lymphatic drainage while simultaneously relieving muscle tension.

Red Light Therapy

Can be added to any program to enhance the treatment benefits.

Red light and near-infrared uses specific wavelengths to stimulate the skin's natural healing and rejuvenation processes. It offers a multitude of benefits, including the enhancement of elastin and collagen production, which are vital proteins for maintaining skin elasticity and firmness. Additionally, red light therapy aids in reducing inflammation and enhances skin health and appearance.

Libra Edge

Hydrotherapy Reimagined

Metawell Libra Edge

A Sensorial Oasis of Wellness

Libra Edge is the ultimate synergy between technology and nature – creating a unique water wellness experience that redefines hydrotherapy.

A unique choreography of varying water temperatures and pressure carries the individual on a personalized journey of balance, invigoration, or deep relaxation. As the aquatic symphony unfolds, the power of touch, color and sound engages the senses to deliver an immersive, transformative and unforgettable escape.

Water can be profoundly influential, and is synonymous with a sense of refreshment, cleansing and renewal. Libra Edge provides an exceptional way to leverage the physical and symbolic characteristics of water, encompassing facets such as contrast therapy, to gently comfort and invigorate the individual.

Features:

Libra Edge Wet Table

- Base made from Corian®
- Table surface with air/water cushion
- Electrical height and inclination adjustment
- Integrated 2-point water drain for optimum drainage, even in an inclined position
- Splash guard to protect the face
- Optional: integrated steam sauna with attachable steam cover

Libra Edge with horizontal shower

- 6 zone horizontal shower arm with Kohler® water technology
- Lying surface with air/water cushions
- Base made of Corian®
- Shower arm cover in aluminium
- Intuitive touch screen control panel
- Electric height and incline adjustment
- Splash guard face shield
- Hand shower
- Integrated water drainage system
- International voltages available

- Table surface length: approx. 203 cm
- Length including arm: approx. 236 cm
- Width: approx. 85 cm max.
- (Recommended) lifting capacity: 300 kg
- Load capacity of the table surface: 350 kg

Libra Edge offers a thoughtfully designed hydrotherapy treatment bed, tapping into the guests' emotions by bringing back the memories of standing in the summer rain or sitting underneath the gentle massage of a waterfall.

Strategically placed showerheads direct streams of water over the guest's body while they lie on the table. It is often combined with other treatments such as massage, body wraps, exfoliating treatments, and facials.

Water or air cushions

The water or air inflatable table cushions offer your customers perfect lying comfort, a relaxing waterbed feeling and the sensation of floating on clouds.

Face Shield

Protects the face from any unwanted contact with water.

Music and sound system

Kohler® sound system's waterproof speakers are seamlessly integrated into the shower arm, for a completely immersive experience.

Steam sauna

Integrated steam nozzles and a detachable cover easily transforms the Libra Edge into a steam sauna.

Ambience LED lighting

The integrated LED lighting washes the tabletop and base in either a gently shifting color gradient or a single, selectable hue—creating an atmospheric glow that's ideal for chromotherapy.

reLounge ZeroG

Back on Track

Metawell reLounge ZeroG

The Future of Touchless Back Pain Relief

In an era where back pain is a commonality, affecting 80% of the population at some point in their lives, the demand for effective back pain management is undeniable.

The technology behind reLounge ZeroG steps in as the touchless, medically certified solution that's not only FDA and CE cleared but also rooted in evidence-based practices.

Discover peace of mind and relief with reLounge ZeroG, the touchless solution that promises to transform your approach to back pain (and neck and shoulders too!)

Features:

- Head Cushion & Knee Bolster
- Includes reLounge StimaWell system with hand-held remote
- Adjusts electrically to zero gravity position with Soft Start-Soft Stop Technology
- Hand-set control
- Independent control after one-time calibration
- European (CE 0482) and American (FDA) approved ,reLounge' medical device
- Unique multi-technology combination & targeted therapy through individual calibration
- Customized wood finish and upholstery color possible
- Remote-controlled colored mood lighting
- Proven high efficiency

reLounge ZeroG

With electric adjustment

from € ---,---

- Table surface height: approx. 54 cm
- Table surface length: approx. 210 cm
- Width: approx. 72 cm max.
- Load capacity of the table surface: 350 kg

Immediate Pain Relief for Back, Neck & Shoulders

Targets muscular imbalances in the back

Supports correct body posture

4 Touchless Solutions in one device (E-Stimulation, Heat,
TENS, Massage)

FDA cleared and Medically Certified

A Deeper Dive

Combining four powerful treatment methods into one system, it features muscle training through electronic muscle stimulation (via a 12-channel stimulation mat), pain relief with TENS (transcutaneous electrical nerve stimulation) and soothing warmth up to 40°C to improve blood circulation and relax the muscles. Together, this delivers the sensation of a deep tissue massage. This not only addresses the symptoms but targets the root causes directly. With reLounge, therapeutic expertise is available at the push of a button.

Engineered for back, neck and shoulder pain relief, reLounge ZeroG delivers results in just 20 minutes and after just one session, making it perfect for standalone sessions or integration with other offerings.

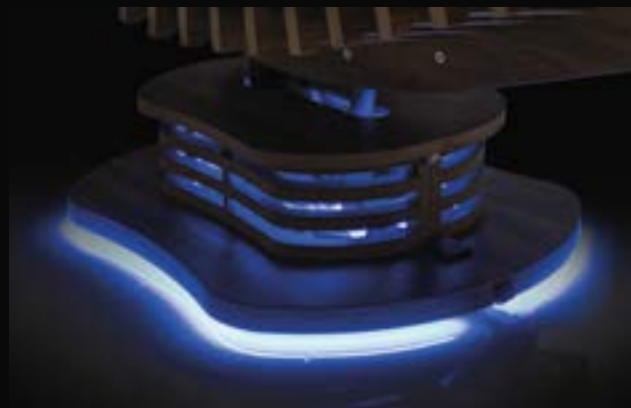

Integrated stimulation mat

reLounge works with medium-frequency impulses that are delivered to the back as a tapping, kneading or stroking massage sensation. Soothing heat improves blood circulation and relaxes the muscles.

Simple operation

A wide range of programs can be selected via the control unit using the touch screen.

LED lighting

The integrated LED lights give the base a particular look and illuminate the treatment room in a pleasant light. Different colors and brightness levels can be set using the hand control.

Wooden base

The base impresses with its elegant and sustainable design. Made from real wood, the ribbed construction ensures optimal stability and a premium look.

Zestós DryFloat

Be Weightless.

Metawell Zestós DryFloat

Soothe, Balance & Recharge

In a world that moves faster by the day, finding a moment of deep relaxation and mind-body recovery can feel like chasing a mirage. Zestós DryFloat is a revolutionary wellness technology that redefines what it means to unwind and recover.

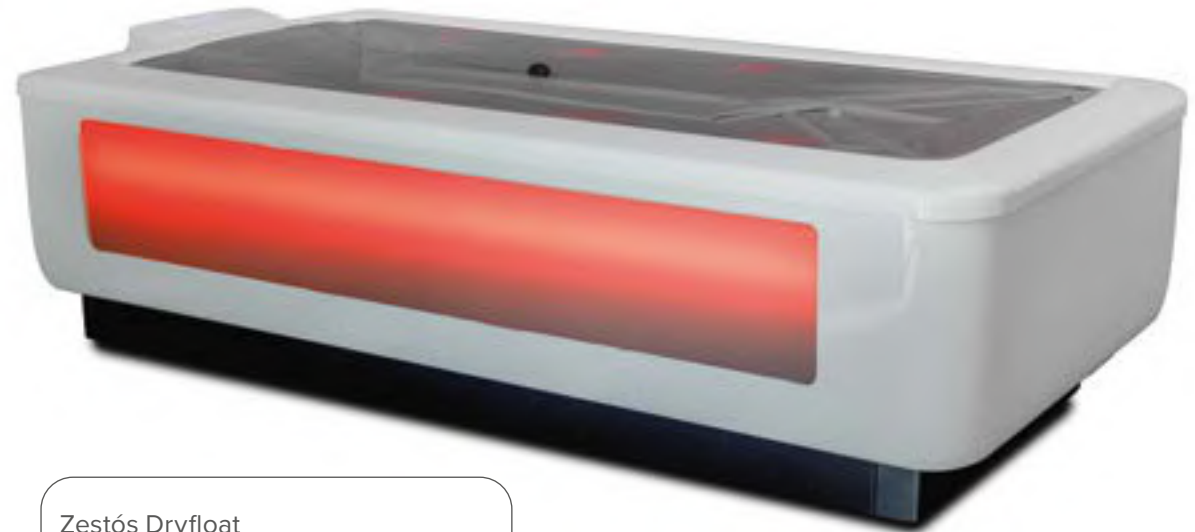

More than just a flotation therapy, Zestós offers a multisensory escape that soothes the body, calms the mind, and recharges the soul—all without getting a single drop of water on you.

Benefits:

- Deep Relaxation
- Improved circulation & lymphatic drainage
- Sports recovery
- Reduced muscle, back pain and joint stiffness
- Reduced gravitational load on the body for joint relief
- Positive effects on anxiety, stress, depression and quality of sleep

Features:

- Touchscreen interface
- Fiberglass panelling & acrylic sub-structure: standard black or white
- Tear-resistant, conformable membrane: translucent
- Electric height adjustment
- Emergency call device for connection to on-site installation
- Optional Spa Ambience coloured light module
- Optional Multimedia Advance system with bluetooth & built-in vibro-acoustics
- Optional Jet Massage module

Zestós Dryfloat

SpaFusion Comfort

Gharieni SpaFusion Comfort

SpaFusion Comfort is the sophisticated base model of the SpaFusion treatment bed that offers high functionality and distinctive design without integrated foot tub or head spa components. It is ADA compliant and designed for versatility.

Features:

- Heated upholstery (optional)
- Adjustable backrest - for customised positioning
- Adjustable seat angle
- U-shaped face rest
- Swivelling and removable armrests - for full freedom of movement for the therapist and comfort for the guest during seated treatments (optional)
- Customisable upholstery and skirting options - for seamless integration into any spa interior and brand aesthetic

--------------------------	---------

- Height: 48-80 cm
- Length: 213 cm
- Width: 80 cm
- Load capacity: 250 kg
- Load capacity of the lying surface: 300 kg

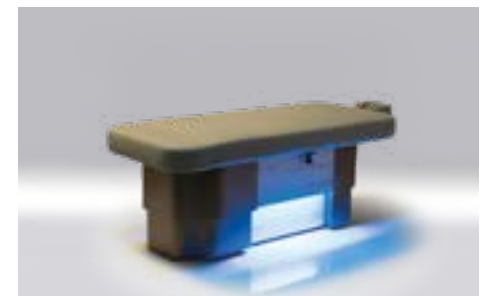

SpaFusion Comfort

Multifunctionality meets ergonomics

It features an adjustable backrest and seat angle, a U-shaped face rest and optional heated upholstery - including the footrest - for unrivalled guest comfort. Customisable finishes ensure seamless integration into any spa décor, while the swivelling, removable arm-

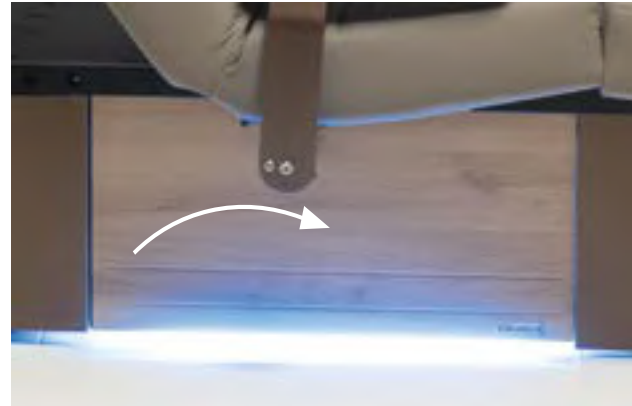

rests (optional) offer greater freedom for both guest and therapist. A streamlined essential for spas seeking form, function and style.

Spa Ambience Light

The SpaFusion Comfort with Spa Ambience Light – for atmospheric lighting design under the base, stylishly complementing multifunctionality and ergonomic luxury.

Exchangeable wood trim

Looking for a new design? Why not just swap out the entire table? The side trim on our SpaFusion Comfort can be very easily exchanged. Our numerous decors offer something for every ambience and a new, fresh look!

Holder for magnifying lamp

A practical option is the retractable magnifying lamp holder made of stainless steel. It was developed for our LED magnifying lamp and simply disappears under the bed surface when not in use.

Optimal heat regulation

The SpaFusion Comfort has a heated lying surface with adjustable temperature control and automatic switch-off as a standard feature, ensuring maximum guest comfort during treatment.

MLX Limber series

Gharieni MLX Limber

With its numerous adjustment options, the MLX Limber enables unique flexibility – for a new dimension in your treatments.

Four different model versions, each available with or without storage space, provide the optimal tool for every need. In the “Flex” top model, the arm supports can be lowered at both ends, which makes the table usable on all sides. The oval-shaped table surface and the extremely narrow base allow for better access to the head/neck and leg areas. Up to six actuators allow extreme positions and thus make the Limber a multifunctional table with unmatched flexibility.

The optional storage space in the table base allows for the practical storage of work instruments and equipment such as two medium-sized Hot Cabis.

Features:

- Available in four table surface versions
- Depending on the version, height, inclination, head, back, leg, and/or foot section are electrically adjustable
- Hand switch with locking and memory feature with four preset table positions
- Lowerable arm supports
- Arm supports swivel horizontally
- Inclination head section(s) with face cradle
- Trendelenburg feature
- With PU comfort upholstery in two thicknesses or synthetic leather upholstery
- Standard upholstery color:
Synthetic leather: White. PU: White and Choco
Other colors from our color collection for an additional charge
- Base in white or wenge, optional in other decors
- Doors made of Corian®
- Depending on the model with generous storage space in the base, for example for up to two medium-sized Hot Cabis

- Height: approx. 63-100 cm

MLX Limber series

Gharieni Limber Flex

For ultimate maneuverability, the Limber Flex is equipped with lowerable, swiveling arm supports on both the head and foot sides, as well as an inclinable head section with face cradle. This makes

it possible to use this table model from both sides, and completely new treatment positions can be set for a spa table. – Limber Flex: Treatments without limits!

Gharieni

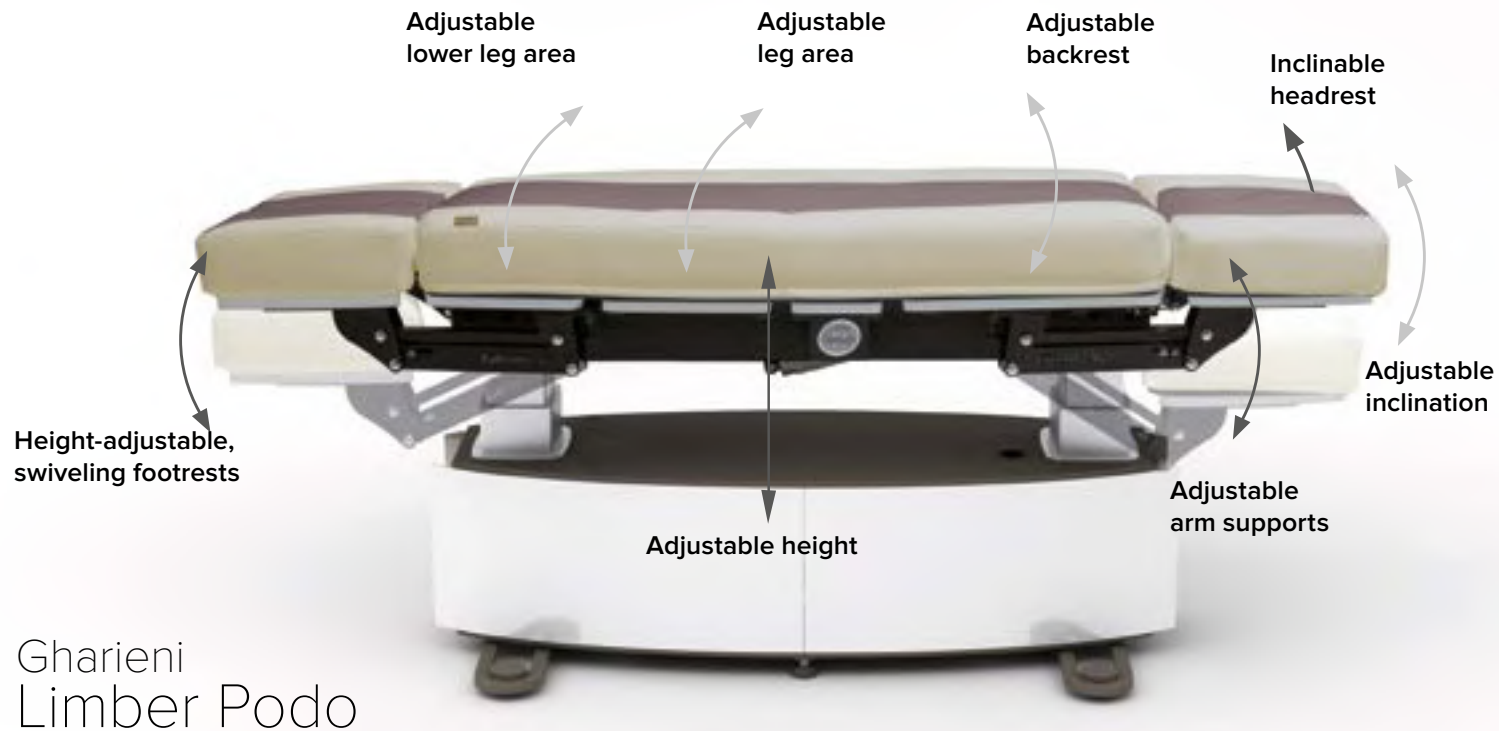

Limber Pro

Thanks to its lowerable arm supports and inclinable head section with face cradle, the Limber Pro is also suitable for treatments in

prone position. The fold-down foot section provides relief for the feet. In addition, it also allows foot treatments.

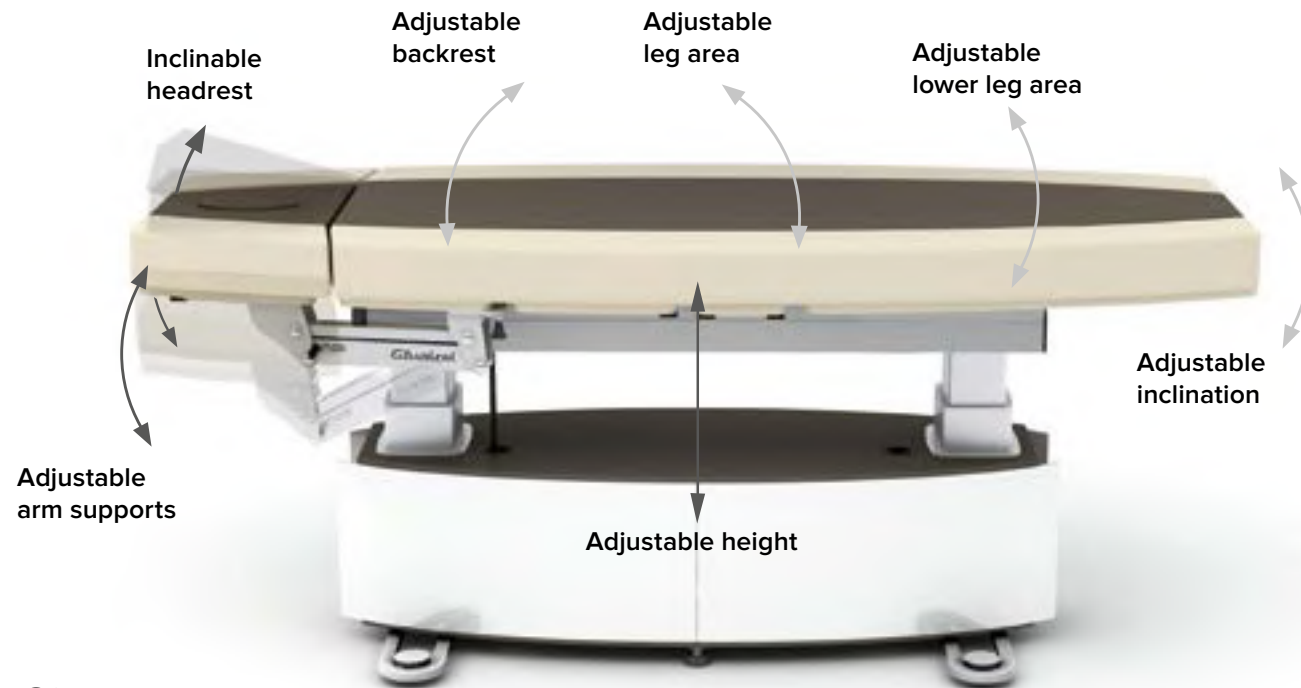

MLX Limber series

The Limber Podo is extremely versatile. In addition to the complete functions of a high-class spa table, the Podo version offers laterally swiveling and lowerable footrests. These allow, in addition to classic foot treatments, the use of a matching mobile PediSpa tub.

Gharieni Limber Classic

This version is equipped with two lowerable arm supports, a tiltable head section with face cradle, and a full-length table surface. For classic facial and spa treatment.

MLX

Gharieni MLX

Our exclusive designer table for spa and wellness. Despite the customer-friendly low step height of 58 cm, the table base offers practical storage space. The removable arm supports and covers, for example, and other table accessories can be stowed within reach here.

Four actuators allow for optimal adjustment options, of which up to eight can be stored as memory positions. Removable arm supports and fold-down frame in the head area make the MLX a perfect work tool for professionals. For individual requests, the features of the MLX as well as its "look" can also be customized.

Features:

- Large storage space
- Two removable arm pads
- Face cradle
- Four actuators for electrical adjustment of height, back, leg, and foot sections
- Trendelenburg feature
- Hand switch with locking and memory feature with four preset table positions
- Soft, robust PU upholstery
- Also available in synthetic leather
- Optional: Soft upholstery
- Standard upholstery color:
Synthetic leather: White. PU: White and Choco
Other colors from our color collection for an additional charge
- Base in five standard decors (see page 23), optional in other decors
- Base with two small drawers and a folding compartment
- Frame in the head area folds away, for a better accessibility of face and décolleté

- Height: approx. 58-98 cm
- Length: 203 cm
- Width: 80 cm
- Lifting capacity: 300 kg
- Load capacity of the table surface: 350 kg

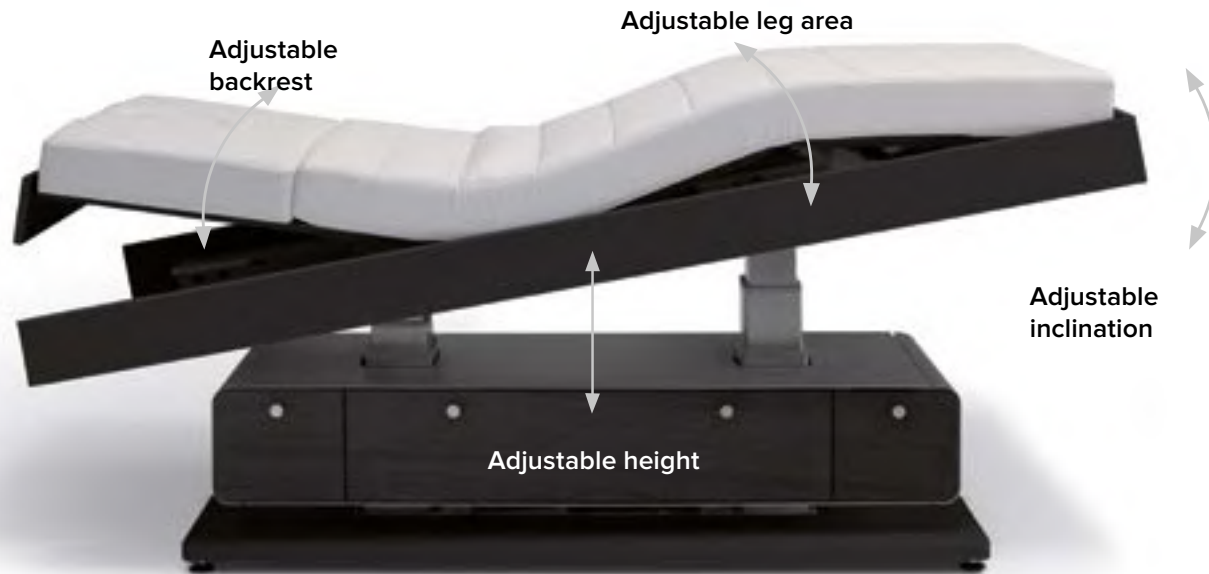

MLX

4-actuator

from € ---

MLX

This exclusively-designed spa table can be optimally adjusted electrically via four actuators. Thus, not only is a customer-friendly step height of 58 cm possible, but also the adjustability of the backrest by approx. 70°, the leg area by about 23°, and the inclination angle

of the table surface by about +/- 15°. Thus, customers experience an innovative, extraordinary massage experience and therapists are able to work effortlessly and in a back-friendly fashion.

Trendelenburg feature

In this zero-gravity table position, the head section is particularly low and the foot section is raised. This allows customers to relax very deeply.

Spa table with large storage space

The MLX is equipped with a spacious storage space in its base. It consists of a combination of two drawers and a large folding compartment..

Removable arm support upholstery

Simply remove the upholstery of the arm supports at the height of the head section and fold the frame down – your customer will then be able to lay down their arms comfortably during all prone treatments.

Available as a Wellmassage 5D special edition

With eight pre-set table positions and special treatment steps, high tech & high touch come together to form a treatment for exceptional deep relaxation.

MLR Transform

Gharieni MLR Transform

A beacon of finesse and functionality, the MLR Transform is a game-changer for the treatment room. From a traditional Thai-massage, to an intricate facial, all is made possible with its capacity to lie flat on the floor, and then within seconds, effortlessly transition to a conventional spa table elevated off the ground.

Flaunting fine lines that exude elegance and beauty, the MLR Transform is not just a spa table- it's an emblem of opulence and versatility.

Features:

- Fully retractable couch with double lifting column technology
- Height, inclination, back and leg area electrically adjustable
- Lying surface can be widened by folding side sections
- Trendelenburg function
- Robust PU upholstery
- Face cradle
- Soft upholstery optional
- Standard upholstery colour: White or Choco. Other colours from our colour collection at extra charge
- Hand switch with locking and memory feature with four preset table positions

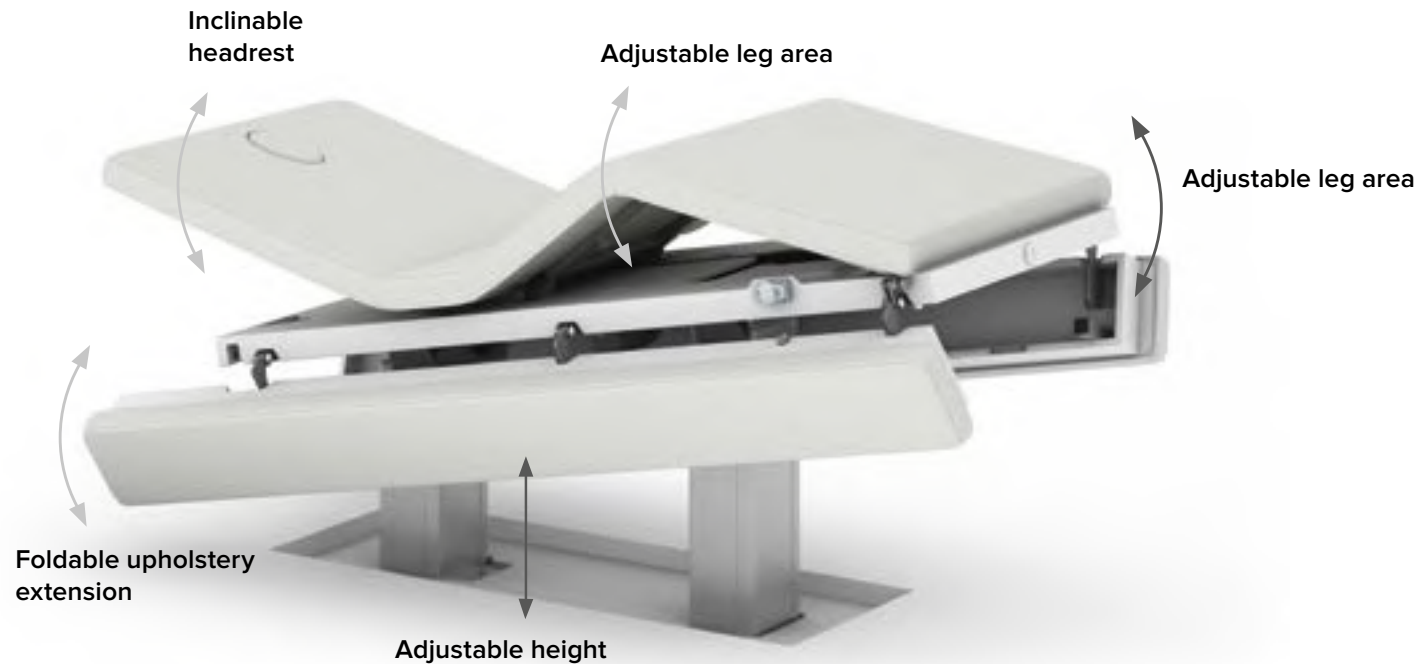

- Table surface height: approx. 17-89 cm
- Table surface length: approx. 200 cm
- Width including side panels: approx. 118 cm.
- (Recommended) lifting capacity: 160 kg

MLR Transform

4-actuator

from € ---

MLR Transform

Clear design, high functionality

The Gharieni MLR Transform can be adjusted electrically using four actuators. The reclining surface can be widened to 118 cm and lowered to the floor using two folding side upholsteries. The adjustment angle of the backrest is approx. 70°, the leg area approx. 25°

and the angle of inclination of the reclining surface approx. +/-15°. This means that the four-part lying surface can be adapted to almost all treatment requirements.

Flat on the floor

The MLR Transform's ability to lie completely flat on the floor at a generous span of 120cm is nothing short of revolutionary, making it ideal for treatments that require ground-level access such as Thai-massages.

The Magic of Transformation

Within seconds, the transformative nature of this table means that it can be elevated off the floor and narrowed to a standard spa table width of 80cm, rendering it a practical option for treatments such as regular massages or facials.

Trendelenburg feature

In this zero-gravity table position, the head section is particularly low and the foot section is raised. This encourages a state of deep relaxation.

Optimal heat regulation

The MLR Transform has a heated lying surface with adjustable temperature control and automatic switch-off as a standard feature, ensuring maximum guest comfort during treatment.

Options (more info. after page 18)

Dentalax neck rest, PU	from	€	---
Gel cushions for the face cradle		€	---

MLR Classic

Gharieni MLR Classic

The purist MLR Classic has – like the MLX designer bed – two strong lifting columns, which permit a wide range of reclining positions. The absence of storage space in the lower area ensures optimal legroom during treatment.

Height, inclination, as well as back and foot sections are electrically adjustable. In addition, the MLR is equipped with a Trendelenburg feature and a locking feature; and of course there is also a face cradle in the rest.

As an additional option, there is a programmable heating system with automatic switch-off as well as a foot switch for controlling the basic functions.

Features:

- Face cradle
- Height, inclination, as well as back and foot areas are electrically adjustable.
- Base made from wood decor
- Metal edge protection at the base
- Trendelenburg feature
- Locking feature
- Robust synthetic leather upholstery
- Optional PU and soft upholstery
- Standard upholstery color:
Synthetic leather: White. PU: White and Choco
Other colors from our color collection for an additional charge
- Base in five standard decors (see page 23), optional in other decors

- Height: 57-97 cm
- Length: 203 cm
- Width: 80 cm
- Lifting capacity: 300 kg
- Load capacity of the table surface: 350 kg

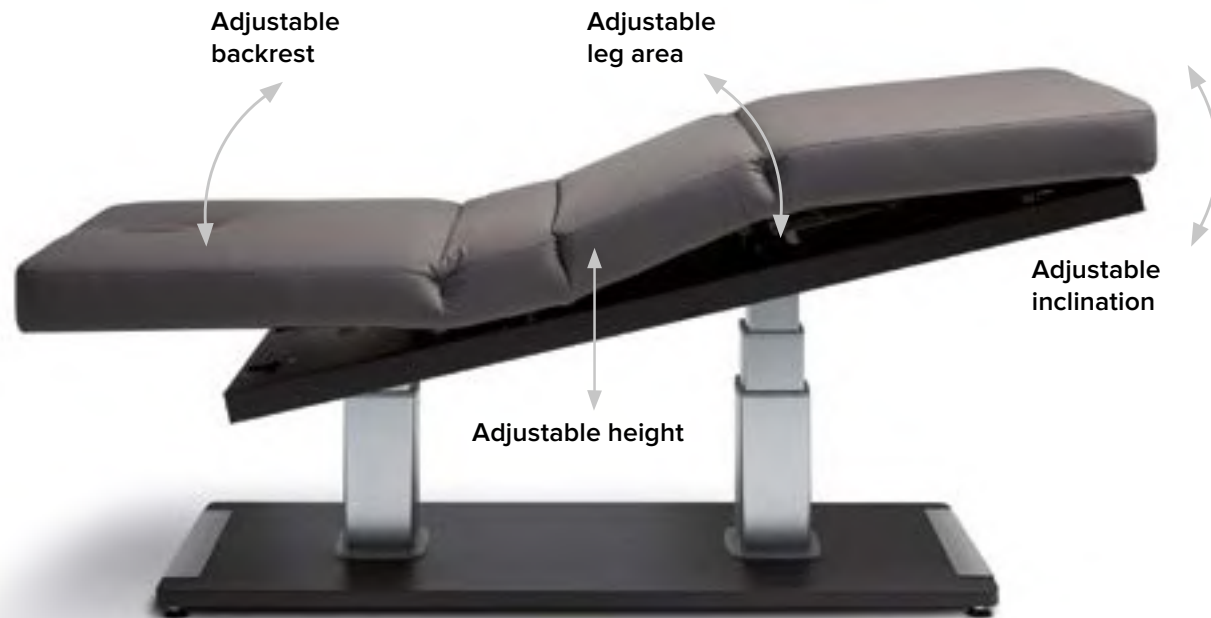

MLR

4-actuator

from € ---

MLR Classic

Clear design, high degree of functionality

The MLR Classic can be optimally adjusted electrically via four actuators. Thus, not only is a low step height of 57 cm possible, but also the adjustability of the backrest by approx. 70°, the leg area by

around 25°, and the inclination angle of the table surface by about $\pm 15^\circ$. The four-part table surface can thus adapt to almost all treatment requirements.

Edge protection on the base

The high-end edge protection on both ends of the table base prevents unsightly wear and damage to the decor. This keeps the MLR always looking well-maintained.

Trendelenburg position

Customers will find particularly pleasant relaxation in the zero gravity bed position with lowered head and raised feet.

Extreme legroom

The MLR offers maximum legroom for all treatments thanks to the particularly slim and elegantly designed lifting columns and the absence of storage space in the bed base.

Also as a wet table version

With a water-resistant PU cover and water-resistant base, the MLR is also perfect for all wet and outdoor treatments (for details see page 156).

MLR Select series

Gharieni MLR Select

Your very own personal wellness couch. Our Gharieni MLR Select follows this principle with its three different basic variants, "Alu", "Wood", and "Static", each in three upholstery widths.

Intentionally, storage space has been omitted here to ensure optimum legroom. With its reduced design, this couch does not need to hide behind its "big sister", the MLX. Two strong lifting columns, lowerable and swiveling arm supports, adjustable head, back and leg sections as well as an optional fold-down foot section make the MLR Select a versatile work tool. In addition, the couch is equipped with a Trendelenburg function and a locking function.

Another option is a programmable heating system with automatic switch-off, as well as a foot switch for controlling the basic and memory functions.

Features:

- Three basic versions with wood or aluminum trim or for direct floor mounting
- Height, inclination, as well as back and foot areas are electrically adjustable.
- Swiveling and lowering arm supports
- also available in a pro version with fold-out foot section
- Trendelenburg feature
- Robust PU upholstery in four widths
- Face cradle
- Optional soft upholstery
- Standard upholstery color: White or choco. Other colors from our color collection for an additional charge
- Hand switch with locking and memory feature with four preset table positions
- Optional with scent generator for aroma therapy

- Height: 61-91 cm
- Length: 200 cm
- Width: 76 cm / 85 cm / 92 cm
- Lifting capacity: 300 kg
- Load capacity of the table surface: 350 kg

Optional lighting (Spa Ambience Light)

Gharieni MLR K8

Equipped with storage compartments and an optional integrated warming drawer, the MLR K8 has the same features as our proven MLR Select models.

Two strong lifting columns, lowerable and swiveling arm supports, adjustable head, back, leg and foot sections as well as an optional fold-down foot section make the MLR K8 a versatile work tool. In addition, the couch is equipped with a Trendelenburg function and a locking function.

Another option is, a programmable heating system with automatic switch-off, as well as a foot switch for controlling the basic and memory functions.

Features:

- Base with storage compartments and optional warming drawer
- Height, inclination, as well as back and foot areas are electrically adjustable.
- Swiveling and lowering arm supports
- also available in a pro version with fold-out foot section
- Trendelenburg feature
- Robust PU upholstery in two widths
- Face cradle
- Optional soft upholstery
- Standard upholstery color: White or choco. Other colors from our color collection for an additional charge
- Base monochrome in five standard decors (see page 23), optionally in two colours and in other decors
- Hand switch with locking and memory feature with four preset table positions
- Optional with scent generator for aroma therapy

- Height: 61-91 cm
- Length: 200 cm
- Width: M 85 cm / L 92 cm
- Lifting capacity: 300 kg
- Load capacity of the table surface: 350 kg

Gharieni MLR Select Vintage

The unique MLR version with storage space in a retro design is an absolute highlight. The base with exclusive metal-wood look offers extensive storage space for towels and everything else you need for your work.

Like the other members of the MLR Select family, the Vintage has two strong lift columns, lowering and swiveling arm supports, adjustable head, back, leg, and foot sections, and an optional fold-down foot section. In addition, the table is equipped with a Trendelenburg feature and a locking feature.

As an additional option, there is a programmable heating system with automatic switch-off as well as a foot switch for controlling the basic and memory functions.

Features:

- Base with vintage design in metal-wood look (standard monochrome decor)
- Multicolor design possible
- With side panels
- Height, inclination, as well as back and foot areas are electrically adjustable.
- Swiveling and lowering arm supports
- Also available in a pro version with fold-out foot section
- Trendelenburg feature
- Robust PU upholstery in three widths
- Face cradle
- Optional soft upholstery
- Standard upholstery color: White. Other colors from our color collection for an additional charge
- Hand switch with locking and memory feature with four preset table positions
- Optional with scent generator for aroma therapy

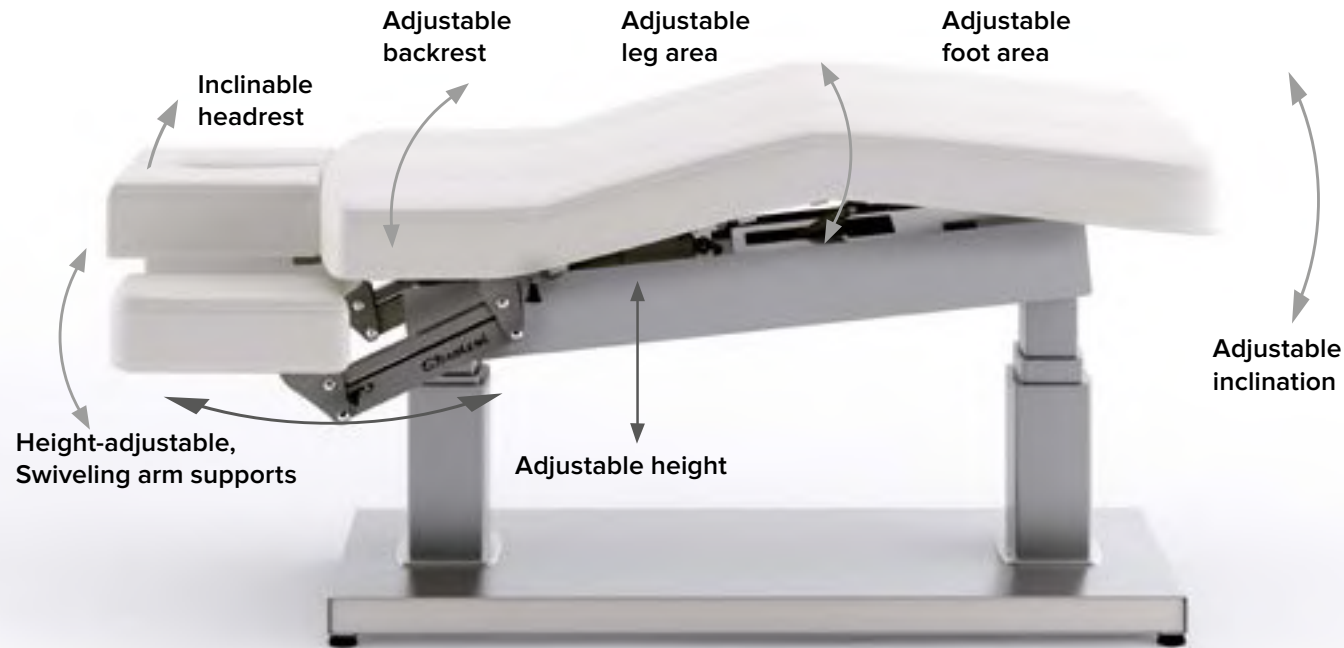

- Height: 61-91 cm

MLR Select series

Practical & Versatile

Do not be fooled by the simplified design of our MLR Select! In terms of adjustability, versatility, and ergonomics, it also meets the highest demands. The head section can be tilted by +/- 30°. With two lifting columns, the height can be adjusted electrically, the back and leg

sections can be adjusted by 70° or 30°, and the arm supports can be lowered by approx. 15 cm. The inclination of the table surface can be adjusted by +/- 15°.

Fold-down foot section

The optionally available fold-down foot section not only facilitates treatment of the feet; but also allows their relaxed, natural position with massages in the prone position.

Trendelenburg position

Customers will find particularly deeper relaxation in the zero gravity bed position with lowered head and raised feet.

Swiveling arm supports

The swiveling arm supports give your treatments the necessary freedom: Simply swivel them backwards and you're able to "freely" work on the head, neck, and décolleté area. The pads can be locked in four positions.

Holder for magnifying lamp

A practical option is the retractable magnifying lamp holder made of stainless steel. It was developed for our LED magnifying lamp and simply disappears under the bed surface when not in use.

MLR Eco

Gharieni MLR Eco

The puristic Gharieni MLR Eco has two lifting columns that allow a wide range of lying positions. The absence of storage space in the lower area ensures optimal legroom during treatment. Four preset and two storable treatment positions as well as control via wired hand control or optional Bluetooth foot control further facilitate daily work. The pleasantly soft PU upholstery is available in the sizes "small" and "medium".

Features:

- Height, leg and back area electrically adjustable
- Arm supports can be lowered
- Robust PU upholstery in two widths
- Soft upholstery optional
- Available in three Versions: Black, white and choco
- Hand switch with locking and memory feature with four preset table positions
- Optional: Bluetooth foot switch

M01 Evo Neo series

Gharieni MO1 Evo Neo

Our MO1 Evo Neo has an extremely low access height from 50 cm. This table allows even very short or physically restricted customers comfortable and convenient access. The arm supports can be electrically lowered and swiveled on request (exception: the MO1 Evo Neo with removable headrest). The optional storage space in the base is flexible and configurable. This way, Hot/Cool Cabs can be integrated on the head and/or foot side. Three table surface versions ensure individual adaptability.

Whether it's standard/soft upholstery or full-length table surface with attachable headrest (without arm supports) – simply choose the table that best suits your needs! Optionally, the MO1 can even be equipped with Breast Contouring System. This ensures that for women, the chest area is relieved in the prone position.

Of course, all models can also be individually configured for upholstery color and basic decor. Ask for our current color and decor patterns!

Features:

- Extremely low access height of 50 cm
- Up to six actuators for adjusting the height, back, leg, and foot sections and optionally for the arm supports as well
- Swiveling arm supports (not on the MO1 with removable headrest)
- Hand switch with locking and memory feature with four preset table positions
- Quilted PU upholstery in three widths
- Three available upholstery versions
- Optional storage space in the base (open or closed)
- Mechanical (optionally electrical) retractable castors
- Standard upholstery color: white or choco. Other colors from our color collection for an additional charge
- Base in five standard decors (see page 23), optional in other decors
- Optional LED lighting strip for base lighting
- Bracket for attaching a (magnifying) lamp optional
- Optional with scent diffuser for aroma therapy

- Height: 50-82 cm
- Length: 205 cm
- Width: S 76 cm / M 85 cm / L 92 cm
- Lifting capacity: 250 kg
- Load capacity of the table surface: 300 kg

MO1 Evo Neo with soft upholstery

MO1 Evo Neo with removable headrest (without arm supports!)

MO1 Evo Neo series

Extremely low access height

With a height adjustability of 50-82 cm, the MO1 Evo Neo is the ideal table model, even for short or physically restricted customers; because the minimum height of 50 cm makes it easier to get in and out of the table. In addition, the MO1 Evo Neo offers optimal adjustability. Thus, the head section can be tilted by + 60°/-35° and the

arm supports can optionally be electrically lowered at the push of a button. The backrest can be set up to 70° and the leg section up to 20°. And for "your" perfect table model, configure the MO1 Evo Neo with a soft, standard upholstery, or a full-length upholstery with a clip-on headrest.

Integrated Hot/Cool Cabi

Integrated compartments in the MO1 Evo Neo on the head and/or foot side of the table base allow Hot and Cool Cabs to be stored. It's a great way to work and your workspace will always be tidy.

Swiveling arm supports

If you need a lot of space for the facial, you don't necessarily have to go without arm supports. The swiveling arm supports give you the necessary free space. Simply swivel them backwards and you're ready to "freely" work on the head, neck, or décolleté area.

Optional: Holder for (magnifying) lamps

The extendable (magnifying) lamp holder made of stainless steel is completely new. When not in use, it simply disappears under the table – a feature no other manufacturer offers. The matching Flex LED magnifying lamp allows for precision while working.

Optional: Aroma therapy

Wellness with all the senses: Immerse your customers into a world of soothing scents during treatment. Your treatment will be a fragrant experience thanks to the integrated scent diffuser.

Options (more info. after page 18)

	Soft Upholstery	€	---

MO1 Max series

Gharieni MO1 Max series

The Gharieni MO1 Max Series offers perfect lying and working comfort. The special feature: the compact base of the table moves upwards with the lying surface and can be equipped with normal storage compartments as well as -optional- with a warming drawer. This ensures both optimal legroom and easy access to your work utensils during treatment.

Four preset and two storable treatment positions as well as control via wired hand switch or optional Bluetooth foot switch additionally make daily work easier. The pleasantly soft PU upholstery is available in the sizes "Small" and "Medium".

The main difference with the MO1 Cruze model is that **it can be lowered to 48cm (ADA compliant)**.

Features:

- Available in two versions: Mo1 Max and Mo1 Cruze with an ultra-low entry
- Base with storage compartments and optional warming drawer
- Height, leg and back area electrically adjustable
- Arm supports can be lowered and swiveled
- Robust PU upholstery in two widths
- Soft upholstery optional
- Also available with lower flat upholstery
- Standard upholstery color: white or choco. other colors from our color collection available at extra charge
- Base in five standard decors (see page 23), optional in other decors
- Hand switch with locking and memory feature with four preset table positions
- Optional: Bluetooth foot switch
- Optional with Breast Contouring System
- Optional with fragrance generator (aroma therapy)
- MO1 Max also available with High Performance lifting columns with approx. 60% more lifting force and 25% higher speed

- Height Mo1 Max: 54-92 cm
- Height Mo1 Cruze: 48-80 cm
- Length: 204 cm
- Width: S 76 cm / M 85 cm
- Lifting capacity: 250 kg / 400 kg (High Performance)
- Load capacity of the table surface: 300 kg / 450 kg (High Performance)

MO1 Max with standard upholstery

MO1 Max series

Storage space and legroom

The functional MO1 Max has a large storage space that can be adjusted in height with the lying surface. In addition, the MO1 Max offers extensive adjustment options. The headrest can be tilted by

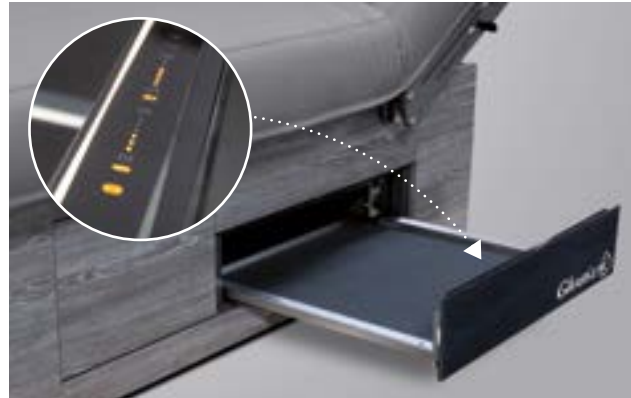

+60°/-35° and the armrests can be lowered and swiveled by means of a gas pressure spring. The backrest can be adjusted up to 70° and the leg section up to 20°.

Lift-up storage space

The special feature of the MO1 Max: The storage compartments are located directly under the lying surface and are lifted up with it. This means they are easily accessible at all times..

Warming drawer

With the optional warming drawer, compresses, herbal pouches or preparations can be brought to the perfect temperature through six preset heating programs. Internal dimensions: 97 mm (H) x 535 mm (W) x 410mm (D), power, max: 810 W

Spa Ambience Light

The hidden LED strip at the base of the couch adds a light accent in your desired color to the MO1 Max and provides atmospheric lighting in your treatment room.

Integrated Hot Cabi

The storage compartment in the base of the MO1 Max treatment table allows you to store a small Hot Cabi. This allows you to work in a particularly practical way and your treatment room is always tidy.

MLW F1 Neo series

Gharieni MLW F1 Neo

The spa table with a special design! The advancement of the MLW Neo has a narrow base, is just 57 cm wide, and features specially curved front ends. These features allow more foot and legroom, making it easier to work on massages and cosmetic treatments. The comfortable full-length upholstery is available in two thicknesses, offering exceptional comfort for every need – even for longer treatment sessions.

A particular highlight is that the wood side panels can be replaced with new ones if necessary. This way you can always adapt the table to your personal ambience.

Features:

- Narrow base trim and gently curved front ends for more legroom
- Configurable equipment
- Exchangeable side wood decor casing
- Up to six actuators for adjusting the height, back, leg, and foot sections and optionally for the arm supports as well
- Hand switch with locking and memory feature with four preset table positions
- Lowerable and swiveling arm supports
- Head section +/- 30° tiltable
- Full-length molded PU upholstery with memory foam in three widths
- Standard upholstery color: white or choco. Other colors from our color collection for an additional charge
- Base in five standard decors (see page 23), optional in other decors
- Mechanically retractable castors

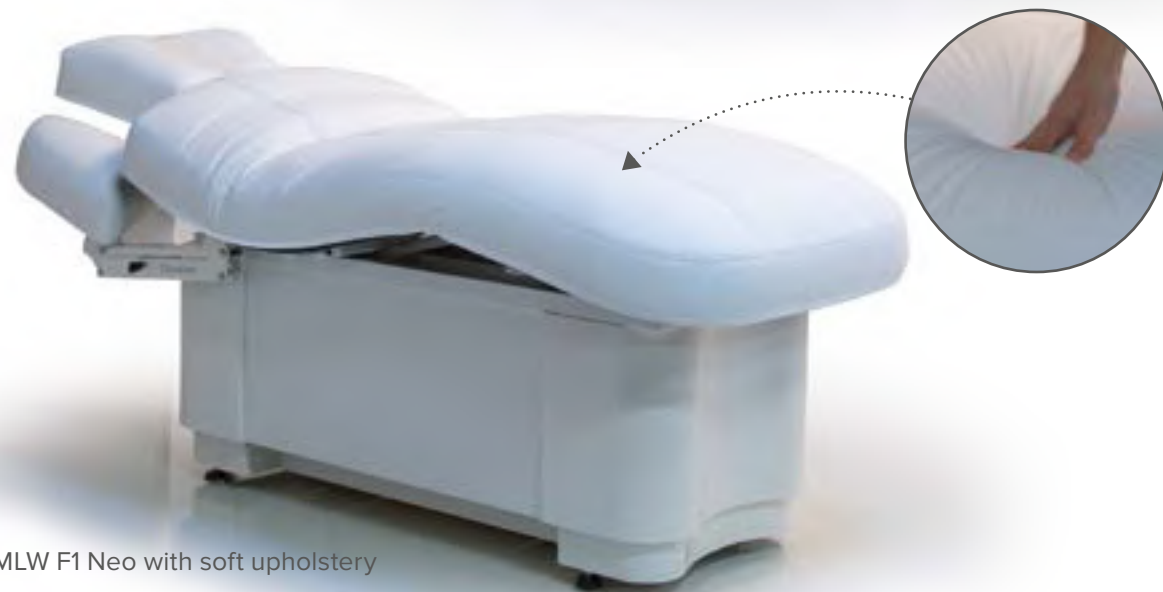

- Height: 58-91 cm
- Length: 203 cm
- Width: S 76 cm / M 85 cm / L 92 cm
- Lifting capacity: 250 kg
- Load capacity of the table surface: 300 kg

MLW F1 Neo series

More comfort with six actuators

Our size M and L MLW F1 Neo models are now also available with six actuators. For more comfort, the arm supports – in addition to height, back, leg, and foot area adjustment – can also be controlled synchronously. In addition to direct settings via pushbuttons on the arm supports themselves, their setting can be conveniently saved

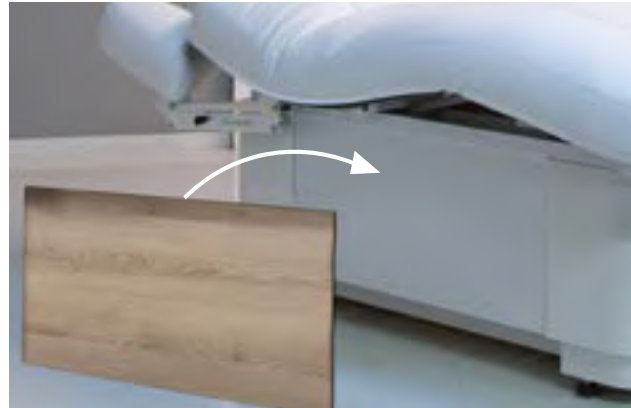

using the memory functions. This allows the F1 to be moved to the programmed positions with a single push of a button. The table surface can be adjusted from 58-91 cm in height, the backrest by about 70°, the leg area by about 25°, and the foot by up to 18°. The head section can be tilted by +/- 30°.

Swiveling arm supports

If you need a lot of space for the facial, you don't necessarily have to go without arm supports. The swiveling arm supports give you the necessary free space. Simply swivel them backwards and you're able to "freely" work on the head, neck, and in the décolleté area.

Exchangeable wood trim

Looking for a new design? Why not just swap out the entire table? The side trim on our MLW F1 Neo Wood can be very easily exchanged. Our numerous decors offer something for every ambience and a new, fresh look!

Specially formed front ends

The curved shape of the front ends made of aluminum provide you with enough legroom for all kinds of treatments. This way you can work in comfortably and enjoyably. The parts are available in different colors.

Spa Ambience Light

The concealed LED strip on the table base adds a light accent in your desired color to the MLW F1 Neo and ensures atmospheric lighting in your workspace.

MLW Neo series

Gharieni MLW Neo

Variable and individual: From the upholstery to the casing, many elements can be individually selected with this classic spa table.

The low height of about 57 cm facilitates access and the maximum height of 92 cm allows back-friendly working. Table area widths in Small (76 cm), Medium (85 cm), and Large (92 cm) are available. In addition to the standard version, there is a soft PU upholstery available as well, offering exceptional comfort to meet every need – even during longer treatment sessions. .

Equipped with four actuators, the treatment positions can be set on this couch as well as two freely storable memory positions with the memory handset. The arm supports can be lowered by pneumatic springs.

Features:

- Table surface in three widths (S, M, and L)
- Height, back, leg, and foot section electrically adjustable
- Hand switch with locking and memory feature with four preset table positions
- Lowerable arm supports
- Head section +/- 30° tiltable
- Soft PU upholstery as standard and soft version
- Standard upholstery color: white or choco. Other colors from our color collection for an additional charge
- Base in five standard decors (see page 23), optional in other decors
- Mechanically retractable castors

- Height: 57-92 cm
- Length: 203 cm
- Width: S 76 cm / M 85 cm / L 92 cm
- Lifting capacity: 250 kg
- Load capacity of the table surface: 300 kg

MLW Neo with soft upholstery

MLW Neo series

Gharieni MLW Amphibia Neo

Whether for classic facial and whole-body treatments "on land" or relaxing spa applications "on water," the MLW Amphibia combines both: The Aqua upholstery, as well as the firm padding, allow for a very flexible variety of treatments, even those currently in vogue. The four actuators allow for a variety of height, back, thigh, and leg section adjustments. The access height is 54 cm. The head section can be tilted up and down by 30° each with a pneumatic spring and the arm supports are also continuously lowerable and therefore ideal for back treatments!

Features:

- Table surface with heated Aqua upholstery
- Height, inclination, as well as backrest and foot section electrically adjustable.
- Lowerable arm supports
- Head section +/- 30° tiltable
- Hand switch with locking and memory feature with four preset table positions
- Illuminated table surface and sides
- Soft PU upholstery can be exchanged for Aqua upholstery
- Inflation connection for optional Ayurveda cover
- Standard upholstery color: white or choco. Other colors from our color collection for an additional charge
- Base in five standard decors (see page 23), optional in other decors
- Mechanically retractable castors

- Height: 54-90 cm
- Length: 202 cm
- Base width: 55 cm
- Table surface width: 85 cm
- (Recommended) lifting capacity: 250 kg
- Load capacity: approx. 300 kg

MLW Amphibia Neo

Including water cushion

from € ---

MLW Neo series

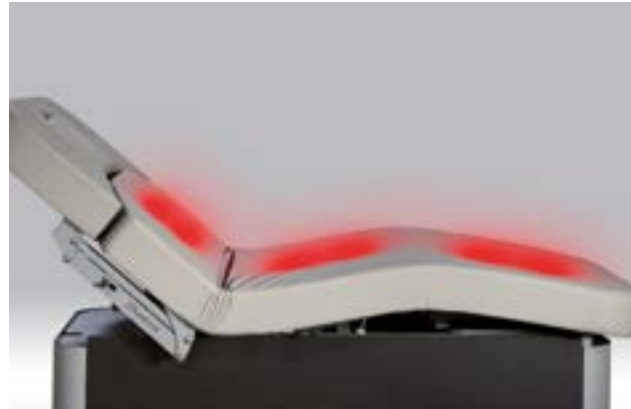

Perfect for any treatment

With four actuators, a height of 54-96 cm can be electrically adjusted on the MLW series table models. The backrest can also be adjusted electrically by approx. 70°, the leg area by approx. 25°, and the foot section by up to 18°. The arm supports can be lowered by

up to 15 cm using a pneumatic spring and the head section can be tilted by +/- 30°. The four pre-set treatment positions are also quite practical at work.

Optimally regulated warmth

The Thermo table heater has a temperature control with an automatic shut-off. This way you can ensure an optimal table upholstery temperature.

Options (more info. after page 18)

	Soft Upholstery (not possible with MLW Amphibia)	€	---

Spa Tables Accessories

Upholstery Covers

With the right covers your spa table will always be well protected against different types of stresses and strains. Our table-specific covers fit exactly the individual upholstery segments and thereby the function of the table is not limited.

Thanks to the high-quality terrycloth material, machine washing up to 60° C is possible and therefore hygienic cleaning is possible. Our covers are available in white, choco, macchiato and black.

It is best to order the right cover directly when you buy your table. Our team would be happy to help you decide!

Dentalax Neck Rest

This little tool can significantly improve the comfort of lying on your treatment table. Because the Dentalax supports the position of the neck and helps to stabilize the head. This creates a more comfortable table experience while relieving the neck vertebra. We recommend the Dentalax neck rest for each of our treatment tables as an optimal supplement for the best lying comfort and an increase in treatment ergonomics. The Dentalax is available to match the upholstery color of the table.

Dentalax with PU, white	€	---
Dentalax with PU, choco, creme, or cappuccino	€	---
Dentalax with synthetic leather, white	€	---
Dentalax with synthetic leather, in standard colors	€	---
Dentalax with synthetic leather, in Stamskin colors	€	---

Foot protective cover

To protect the table areas at the foot end, we offer a suitable protective cover made of robust, transparent PVC for all tables. It can be securely fixed to the upholstery via Velcro.

Protective cover	€	---
------------------	---	-----

Gel cushion for face cradles

Prevent unpleasant pressure points on the face with this gel cushion. In addition, the gel fluid has a pleasantly cooling effect. The transparent gel cushion can be securely attached to our tables by means of one or two tabs.

Gel ring with 2 tabs	€	---
Gel ring with 1 tab	€	---

Cover towel with face cradle, large

There is this special single-use cover towel with face cradle for improved hygiene. What makes it special: Thanks to its width, it not only protects the headrest, but also the arm supports against contamination. Ideal for all our tables with lowerable arm supports or wide head sections. Size: 130 x 35 cm

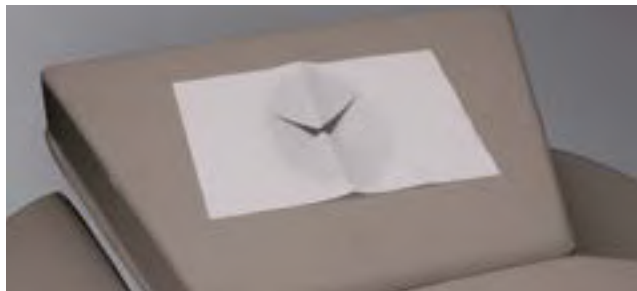

Package with 50 items, Art. 45310. € ---

Face cradle towels

Extra soft, slotted disposable towel to protect the headrest upholstery; extremely practical and hygienic. Recommended for all headrests with face cradle. Size: 30 x 21 cm

Package with 100 items, Art. 45305 € ---

PU protective cover

With this practical cover made of robust PU material, nothing stands in the way of your special treatment any longer. Whether it's oil massages, packs, or the like, the upholstery is always well-protected. The cover has an elastic band to prevent unwanted slipping and can be washed at up to 95 °C and suitable for tumble drying. Available in white, choco, black, macchiato, or creme depending on spa table.

PU protective cover, Art. 49051 from € ---

Ayurveda cover

The transparent Ayurveda cover is ideal for pouring oil. It features a drain which allows the oil to be cleanly drained away. The side edge is inflatable allowing the cover be stored to save space after use.

Ayurveda cover, Art. 49050 € ---

mikrozyd® sensitive

For the gentle and thorough care of our upholstery we recommend mikrozyd® sensitive. Available as liquid or ready-to-use cloths in a handy dispenser, it eliminates bacteria, fungi, and viruses (such as HBV, HIV, Rota, vaccinia). Without alcohol!

mikrozyd® sensitive Wipes, Art. 79418 € ---
mikrozyd® sensitive Liquid, Art. 79417 € ---

Cleaning Spray

The new Gharieni cleaning spray ensures hygienic cleanliness on your massage and treatment table. It effortlessly cleans upholstery, wooden surfaces, and metal parts, is gentle on materials, and powerful against dirt—for a fresh and well-maintained workplace.

Gharieni
RLX series

Evo Lounger

Gharieni Evo Lounger

This exclusive lounger offers pure relaxation. Equipped with four actuators, the head, back, leg, and foot sections can be adjusted separately via handheld remote control. The three most common table positions are preset and can be called up at the push of a button. Thanks to its special material, the upholstery is able to perfectly adapt to every body type. With a pull-out shelf on the left and right as well as an optional LED reading light, the Evo Lounger offers moments of well-being with maximum comfort.

And that little extra: The lounger color can be individually designed. The standard white or choco PU upholstery is also optionally available in creme, black, and macchiato. The casing comes equipped standard in white or with wenge decor. This allows the lounger to integrate perfectly into any atmosphere, making it a truly personalized highlight for any relaxation area.

Features:

- Four actuators for adjusting the head, back, leg, and foot areas.
- Four pre-set positions
- Quilted PU upholstery
- Standard upholstery color: White. Other colors from our color collection for an additional charge
- Base in five standard decors (see page 23), optional in other decors
- Pull-out tray on both sides
- Optional LED reading light

- Lounger surface height: approx. 50 cm
- Length: 205 cm
- Width: 85 cm
- Load capacity of the table surface: 250 kg

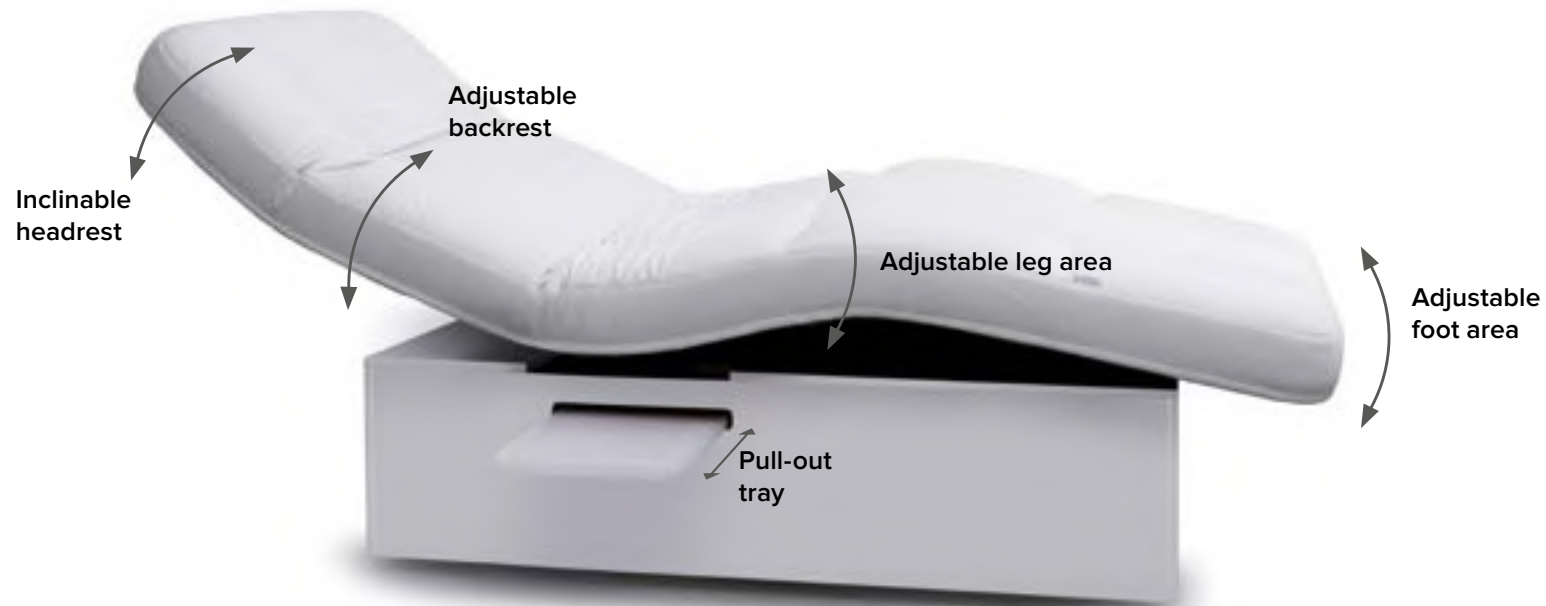

Evo Lounger

4-actuator

from € ---

Evo Lounger

Relaxing lounger comfort

With four actuators and a handheld remote control, the Evo Lounger can be easily adjusted for optimal lying comfort. The head section can be raised by 35°, the back by 50°, the leg section by 20°, and the foot section by 18°. In addition, the upholstery adapts to each customer individually and thus provides an additional relaxation factor.

And the practical trays on both sides of the lounger can be easily pulled out with a handle.

Optional LED reading light

Equipped with an LED reading light, the lounge offers everything your customers need for a relaxing break (picture similar).

Pull-out tray

The pull-out tray on both sides is the perfect spot for setting something down or putting something away while reading with a wellness beverage.

Multimedia sound system

The integrated multimedia sound system allows you to load relaxing sounds and music on demand.

Easy to use

Three preset lounge positions can be accessed at the simple press of a button. Of course, the Evo Lounger is also individually adjustable.

RLX series

The models to choose from

With their high-end design and high degree of quality, the RLX models truly stand out. While the position of the lounge surface is fixed with the RLX Light, on the RLX Electric the lounge surface can be electrically adjusted. You're not just choosing "your" model, but also the best upholstery color and coating of the metal parts for

your atmosphere – for your relaxation area's perfect look. With optional extras such as the Thermo heating system for a comfortable temperature of the lounge surface, downtime on the RLX for your customers becomes a real relaxation experience!

LED reading lamp

The optionally available LED light for reading makes relaxation time on the RLX even more enjoyable for your customers. Its flexible neck makes it easy to put it in the right position..

Removable neck cushion

The neck cushion, which can be easily removed if necessary, offers perfect lying comfort. It can be optimally positioned via a Velcro fastener.

Optimally regulated heat

The RLX Electric can be equipped with a heatable lying surface. This Thermo system has a temperature control including automatic switch-off. This ensures an optimally tempered lying surface. .

Especially stable

An elegant appearance combined with maximum stability – this is ensured by the sophisticated metal construction of the RLX. This can optionally be coated in your personally favorite color.

SpaFusion Flow

Multifunctionality meets ergonomics

It was developed for a comprehensive range of spa treatments and is ideal for massages, facials, manicures, pedicures, and body treatments. Thanks to its innovative dual lift column system, the table offers a particularly low entry height of only 48 cm, thus meeting ADA requirements for barrier-free access. The ergonomically shaped

footwell allows therapists to work in close proximity to the person being treated – comfortably, efficiently and always at the highest level. The SpaFusion Flow thus combines therapeutic functionality with maximum well-being for guests and users alike.

Spa Ambience Light

The SpaFusion Flow with Spa Ambience Light – for atmospheric lighting design under the base and in the footwell, stylishly complementing multifunctionality and ergonomic luxury.

Foot bath

The ergonomically integrated foot bath features stylish lighting provided by the Spa Ambience Light and a practical hand shower – for comfortable, efficient pedicure treatments of the highest standard.

Cover

The removable cover of the foot bath allows for maximum flexibility: simply place it on top for classic treatments and remove it effortlessly for pedicures. This keeps the SpaFusion Flow versatile and elegant in every application.

Pipeless Massage function

The optional pipeless massage system in the footwell provides hygienic, powerful water jets without pipes – for a soothing foot massage with minimal cleaning effort and maximum spa comfort.

Exchangeable seat upholstery

The optional Comfort upholstery (pictured left) is made of durable, hygienic PU and is very soft. This allows customers to enjoy their treatments even more relaxed.

Hair care

Care from head to toes! Together with the Hair Swing basin, the Pedispa Square with removable headrest also makes hair care easy.

PediSpa Compact

PediSpa Compact

With our PediSpa models, you can not only work perfectly professionally, but the foot bath also becomes a special wellness experience. Because these treatment tables offer exceptionally comfortable seating. The space saver among the PediSpas is the PediSpa Compact, which is permanently installed on the floor and has an integrated water inlet and outlet as well as a pull-out hand shower. Its basin is covered by the frame as soon as the seat is pushed forward. In addition, the little step on the front can be pulled out. Featuring a non-slip surface, customers can comfortably and safely be seated and also "descend" back down again. In addition, the PediSpa Compact is available with two armrests: standard with low armrests or optionally with high armrests, each of which can be equipped with an integrated folding tray.

Features:

- Two-part base
- Seating area completely movable to the rear
- Foot basin made of high quality Corian® securely installed on the floor
- When the seat is pushed forward, the basin is covered by the frame
- Compact construction
- Adjustable backrest
- Two possible headrest versions: removable (option) or inclinable (standard, included in the price)
- Height-adjustable footrest
- Upholstery made from synthetic leather
- Standard upholstery color: White. Other colors from our color collection for an additional charge
- Basin with pull-out hand shower, integrated water inlet, and drain
- Optionally with Pipeless Massage
- If there is no connection to the ground, the installation of a drainage pump is possible
- Optionally with a folding tray integrated in the armrest
- Retractable, non-slip step on the front

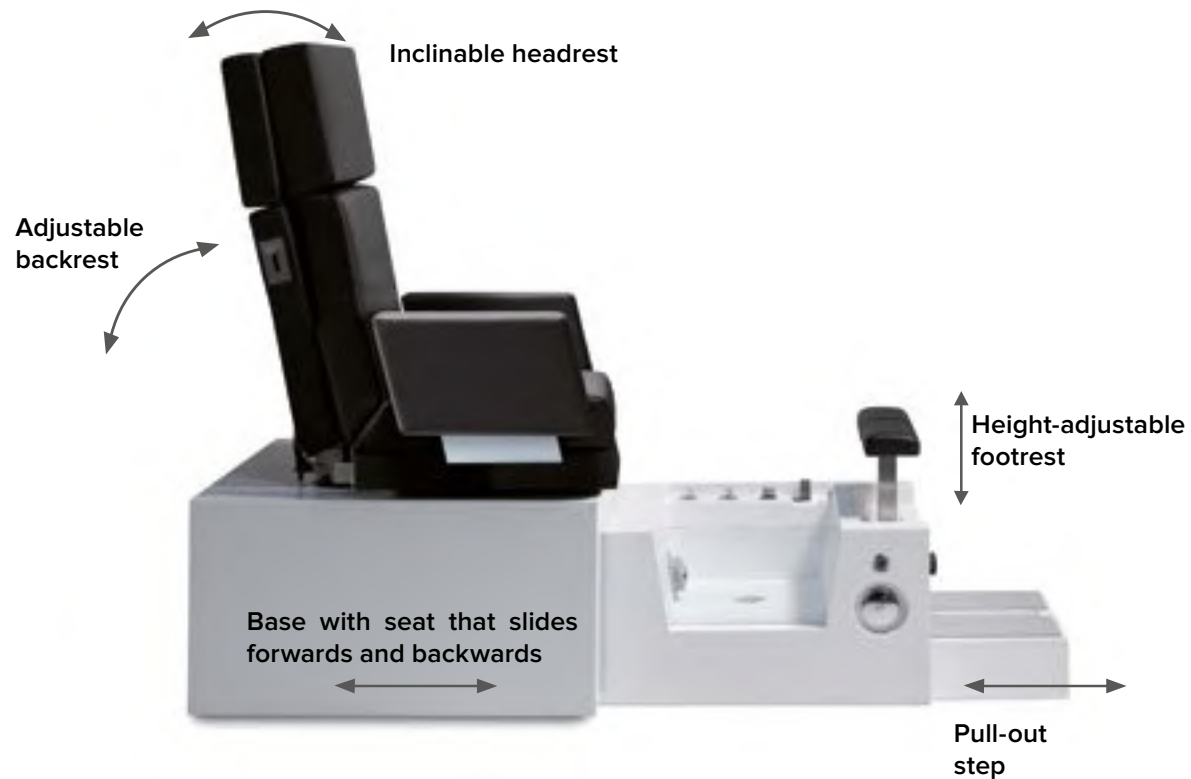

- Base length (retracted): approx. 80 cm
- Base length (extended): approx. 150 cm
- Overall width including armrests: approx. 86 cm
- Base width: approx. 80 cm

PediSpa Compact

PediSpa Compact

Practical in every respect

With this PediSpa, the base and seat can be pushed over the foot basin to save space. The pull-out step makes it easy for customers to take their seats and descend again; and the headrest, which can be tilted forwards by 25°, offers perfect sitting comfort.

The footrest, which can be adjusted up to 21 cm in height, allows for ergonomic working during pedicures. Thanks to the backrest, which can be tilted backwards by up to 75°, the PediSpa Compact is also perfect for use with cosmetic treatments.

Space-saving construction

This foot bath does not take up much space, because by simply moving the seat forward it is covered by the table base. In addition, a pull-out step is integrated into its front.

Removable headrest

The PediSpa Compact is also available with a inclinable headrest, in addition to a removable/retractable headrest. This equipment version is recommended for all hair treatments.

Footrest height-adjustable

The footrest is manually height-adjustable. This puts your customers' feet at the appropriate working height for perfect ergonomic sitting during the pedicure.

Removable head section

The head section of the PediSpa Curve can be both tilted and removed. Thus this table is also well equipped for hair care.

Omnia HeadSpa

Omnia HeadSpa

Basic Price € ---

Spa Ambience Light + € ---

Gharieni Omnia HeadSpa

The Omnia HeadSpa promotes physical and mental well-being through targeted, sensory treatments. These treatments release both external and internal tension, providing a profound care experience.

Each treatment cleanses intensively, rebalances the scalp, and creates a moment of calm that soothes both body and mind.

Features:

- Designed to reduce back and neck strain, with generous leg and elbow clearance for practitioner comfort.
- Tall, narrow structure minimizes reach and supports optimal working posture during treatments.
- Quick-connect water supply and drainage system
- Adjustable headrest, available in multiple sizes.
- Integrated towel rack.
- Customizable finishes to elevate any treatment space.
- Ambient LED lighting beneath the basin.
- Quality, durable materials for heavy professional use.
- Seamless connection and disconnection in under 5 seconds
- Integrated hose management for easy, discreet storage between treatments
- Connections integrated into side panel—no exposed pipes

- Height: 81 cm
- Width: 51 cm
- Depth: 88 cm
- Weight: approx. 25 kg

Recess for legs

- Height: ca. 63 cm
- Width: ca. 58 cm

Connection dimensions

- Water: 2x 3/8" female
- Discharge: 32 mm (1,3")

Invisible technology, maximum comfort

The adjustable headrest offers optimal comfort, while integrated side connections and sophisticated hose management ensure a tidy, tube-free design and an elegant look.

Flexible use

Thanks to its integrated casters, the Omnia HeadSpa can be easily and flexibly positioned anywhere in the spa. Lockable brakes ensure absolute stability, guaranteeing a secure footing during treatment.

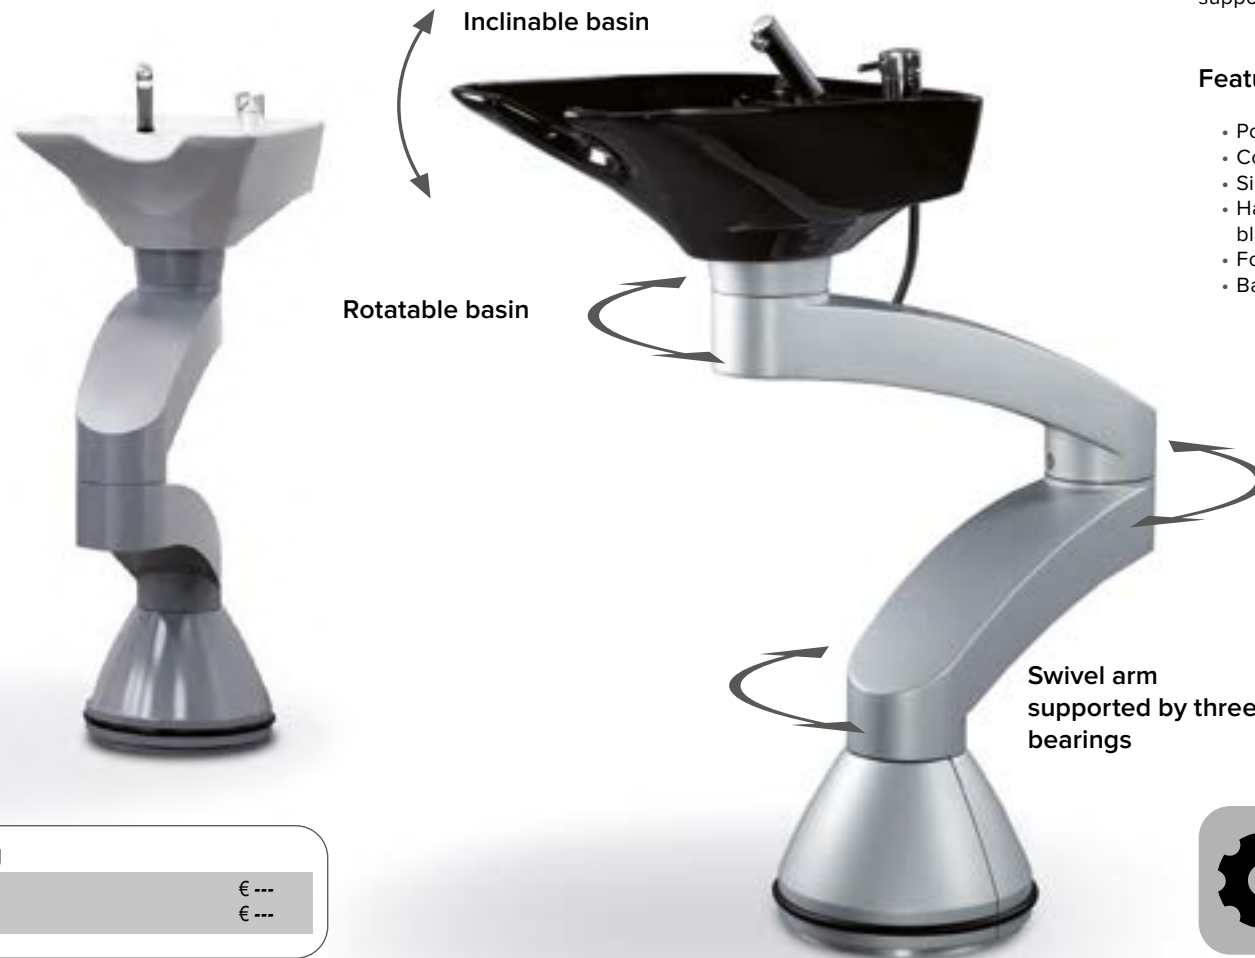

Hair Swing

Washing System Hair Swing

The Hair Swing washing system is a real highlight for all hair care applications. With three articulated elements, the Hair Swing has a particularly wide radius of 120 centimeters. This allows convenient operation of two stations next to each other. The porcelain basin also offers optimal comfort with its tilting mechanism: If the washing system is not in use, it takes up little space thanks to its swivel arm supported by three bearings.

Features:

- Porcelain basin with tilting mechanism for hair washing
- Completely 360° rotatable
- Single-handle faucet row with ceramic sealing
- Hand shower with hose lead-through and shower hose in black, 100/140 cm long
- Foot color: White aluminum
- Basin color: White or black

Hair Swing

White	€ ---
Black	€ ---

- Maximum reach 120 cm
- High basins: 94-100 cm depending on the tilt angle

Practical hand shower

The modern, flexible hand shower with its long hose and the practical single-hand faucet allows for optimal hair care..

Flexible articulated arm

After use, the Hair Swing basin can easily be swung aside. This way you have sufficient space for your other treatments.

MLR Wet

Gharieni MLR Wet

Be it spa treatments in the open air or wet treatments indoors at your spa – with its waterproof coating and the water-resistant materials of the base, the MLR Wet meets exactly these requirements. The purist-elegant spa table offers many electrical adjustment options, such as height, inclination, and back and foot sections. In addition, the MLR Wet is equipped with a Trendelenburg feature and optionally with a locking feature. The upholstery has a face cradle for comfortable prone body treatments.

Important note: for wet and outdoor use, the supplied waterproof cover is required!

Features:

- Exclusive wet/outdoor table
- Table surface with electrical height, back, leg section, and inclination adjustment
- Including removable, waterproof cover for wet treatments
- Two removable batteries for independent power supply
- Standard upholstery color:
Synthetic leather: White.
Other colors from our color collection for an additional charge

MLR Wet

Including 2 waterproof covers

from € ---

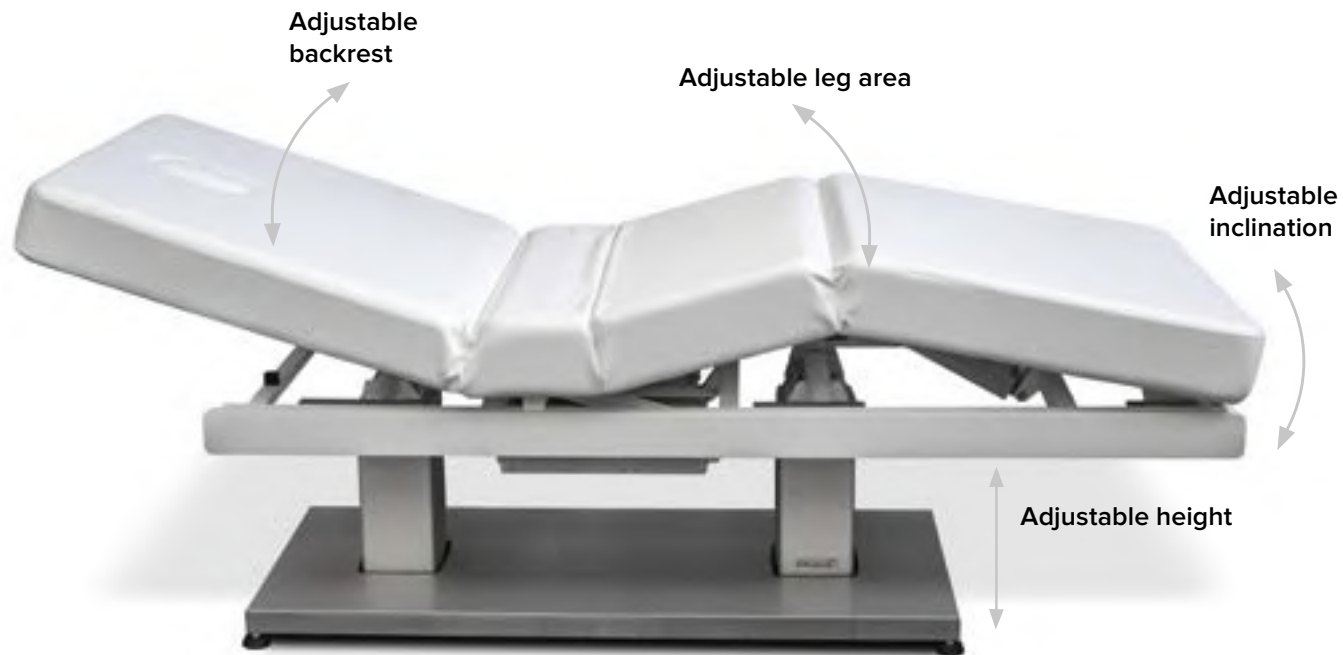

MLR Wet with
waterproof cover

- Height: approx. 57-87 cm
- Length: approx. 203 cm
- Width: max. approx. 80 cm
- Lifting capacity: 300 kg
- Load capacity of the table surface: 350 kg

MLR Wet

For indoor & outdoor treatments

With its two lifting columns, the MLR Wet can be set at a height of 57-97 cm and the inclination angle of the table surface can be adjusted to +/- 15° to the Trendelenburg position. Also electrically, the

back and leg area can be angled at 70° or 25°. Thus, the MLR Wet offers optimal table and working comfort for all wet indoor treatments or outdoor spa treatments.

Waterproof materials

Made with waterproof materials and a removable, waterproof cover, the MLR Wet is the ideal choice for both wet and outdoor treatments.

Trendelenburg position

This zero-gravity table position with low head and elevated foot section allows customers to relax in comfort.

Battery operation

Thanks to the battery integrated into the table, the MLR Wet can also be operated electrically independent of the power supply. It is removable and can easily be exchanged for a supplied second battery.

Waterproof cover

The water-resistant PU cover is skin-friendly, hygienic, tough, and essential for all wet treatments. The cover is available in white or choco..

Shiatsu mat

MLW Transform

Gharieni MLW Transform

The MLW Transform gives the term “feel-good sofa” a whole new dimension, because this high-end couch transforms into a massage table in no time.

The massage table, with its independent battery and pull-out cable is of course height-adjustable and can be heated for a cozy, feel-good experience. For optimum comfort, the head section can also be adjusted for height and inclination.

If you need more seat space, the three cushions on the backrest of the couch can simply be removed. The high-quality, elegant synthetic leather cover of the upholstery is available in various decors and colors. For a very personalized look, the sofa can also be equipped with a leather cover or a (customer’s) cover fabric on request.

Features:

- Massage table and sofa in one
- Pull-out massage table
- Height electrically adjustable
- Electrically extending lightweight castors
- With integrated battery and power connection
- Removable, crescent-shaped head section
- Storage compartment in the base
- Robust synthetic leather upholstery in black
- Optional in various decors, leather, or (customer’s) cover material
- Three removable cushions on the backrest

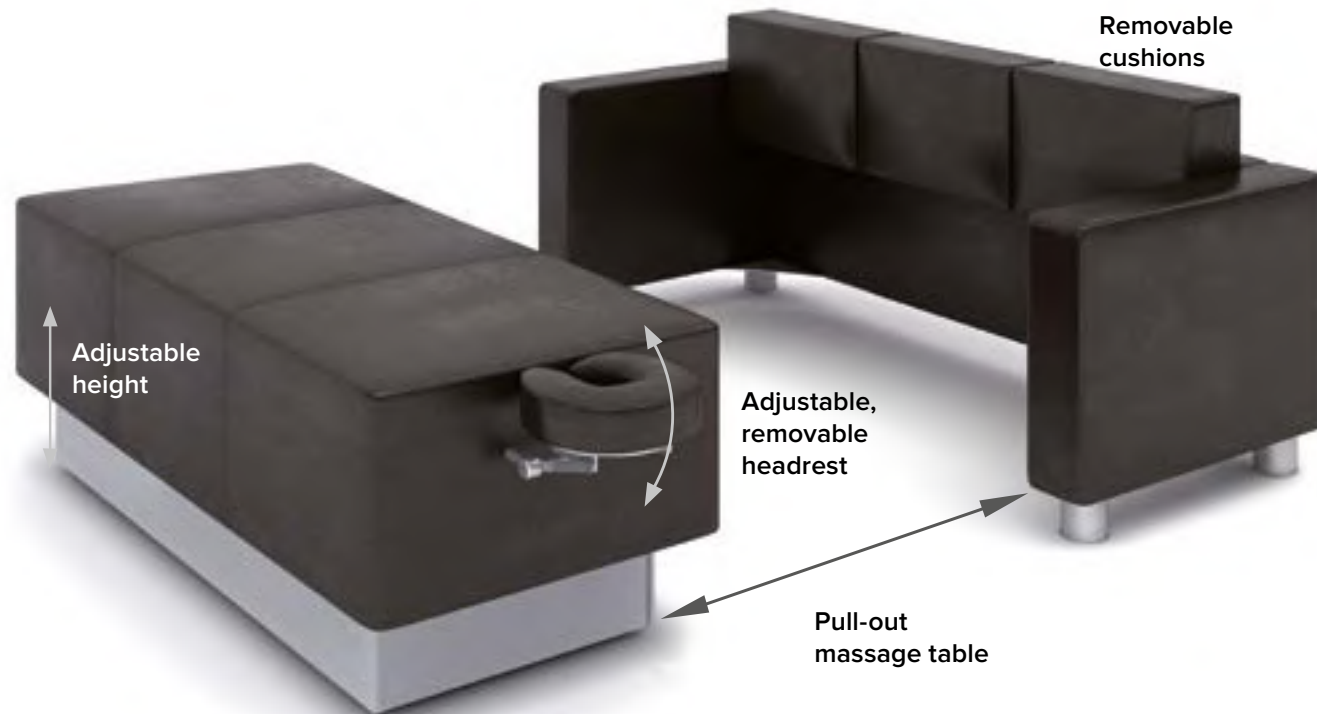

- Couch height: approx. 80 cm
- Table height: approx. 45–75 cm
- Couch width: approx. 212 cm
- Spa Table:
- Length without head section: approx. 166 cm
- Couch depth: approx. 87 cm
- Spa Table: Width approx. 75 cm
- (Recommended) lifting capacity: 250 kg
- Load capacity of the table surface: 300 kg

MLW Transform

Sofa-massage table combination	from € ---
Individual massage table	from € ---
Sofa as purely seating furniture	from € ---

MLW Transform

Two-in-one

The high-end “feel-good sofa” can easily transform into a massage table: Pull out with the electrically retractable lightweight castors and attach the adjustable crescent-shaped head section – done! For massage treatments, the height can be adjusted electrically

from 45-75 cm. In addition to a cord connection, the MLW Transform also has a battery and can thus be used away from a wall power outlet.

Flexible headrest

The crescent-shaped, adjustable headrest is easy to put on – the massage table is ready!

Practical storage compartment

With a practical storage compartment in the base of the massage unit, the headrest is always ready at hand.

Battery operation

With its integrated battery, the MLW Transform can be used independently of a wall power outlet. It is charged via the pull-out power cord.

Easy to use

Thanks to the integrated touch panel, the electrically extendable lightweight castors can be easily activated and the height of the table surface can be adjusted.

ML series

Gharieni ML series

All tables in the ML series are electrically height-adjustable. The head section can be inclined pneumatically via pneumatic spring by +/-30°. In the two-actuator version, the head area of the MLK can be adjusted electrically as well as on the MLL. The MLK ABS and MLK Physio are equipped with arm supports that can lower you for prone treatments, while the MLL offers a larger head section. The base is available in both white (standard) and titanium (optional).

Features:

MLK ABS

- Electrical height adjustment
- Lowerable arm supports
- Head section with face cradle inclinable +/-30°
- White synthetic leather upholstery, optional in other colors

MLK Physio

- Electrical height adjustment
- electrical adjustment of the elevated center position
- Lowerable arm supports
- Head section with segmented face cradle inclinable +/-30°
- White synthetic leather upholstery, optional in other colors

MLK

- Electrical height adjustment
- Head section with face cradle inclinable +/-30° via pneumatic spring (optional electric)
- White synthetic leather upholstery, optional in other colors
- Short head section with face cradle

MLL

- Electrical height adjustment
- Head section inclinable +/-30° via pneumatic spring (optional electric)
- White synthetic leather upholstery, optional in other colors
- Long head section with face cradle

- Height: 61-91 cm
- Length: 196 cm
- MLK (ABS) head section length: 42 cm
- MLL head section length: 67 cm
- Width: 70 cm
- (Recommended) lifting capacity: 200 kg

ML series

The massage specialists

The “MLK ABS,” “MLK Physio,” “MLK,” and “MLL” massage tables are electrically height-adjustable from 61-91 cm and their head section can be tilted via pneumatic spring; on the MLL and MLK this is +/- 30° also possible electrically on the two-actuator version. The

MLK ABS and MLK Physio are also equipped with lowerable arm supports, with the MLK Physio also having a segmented table surface for setting an elevated center position.

For prone treatments

The MLK ABS and MLK Physio models are equipped with lowerable arm supports and a downwards and upwards tilting headrest with face cradle. This makes them suitable for all prone treatments.

Special elevated center position

To provide relief for your customer's lumbar spine area, the table surface can be brought into an elevated center position by the actuator on the MLK Physio.

Paper roll holder

With a paper roll holder mounted at the foot of the table, you can always pull protective paper over the table (see also page 178).

Everything within reach

The compartment under the MLK and MLK ABS serves as a handy storage space, e.g. for hand towels. If necessary, the compartment can be supplemented with a second shelf.

Ayurveda Table

Gharieni Ayurveda Table

Thanks to its special design, this table is suitable for all Ayurvedic treatments. The upholstery features a raised edge for use with larger quantities of oil and an oil-resistant PU cover. The accompanying four-piece PU accessory set consists of an Ayurveda half roll, a crescent-shaped massage headrest, an arm support, and a headrest with drainage device.

The table height can be manually adjusted hydraulically or electrohydraulically. The large shelf below the bed can be used for everything you need for treatment.

Features:

- Upholstery especially for Ayurvedic treatment methods
- Elevated upholstery edge for use of larger amounts of oil
- Oil-resistant PU cover
- With hydraulic, electro-hydraulic or without height adjustment
- Four-piece PU accessory set with Ayurveda half roll, special headrest with drain, crescent-shaped massage headrest, and arm support

Ayurveda Table

Electrohydraulic, Art 49043	from € ---
Hydraulic, Art 49042	from € ---
w/o height adjustment, Art 49040	from € ---

- Height (without edge): 58-88 cm
- Length: 200 cm
- Width: 85 cm
- Lifting capacity: 200 kg
- Load capacity of the table surface: 200 kg

Ayurveda Table

The oil can flow here

The height of the Ayurveda table can be adjusted hydraulically by hand crank or electro-hydraulically by pressing a button from 58-88 cm. The headrest can be tilted up and down and the arm

support can be attached at different heights. For the use of larger quantities of oil, the seat cushion is equipped with a raised edge and an oil-resistant PU cover.

Perfect for oil treatments

The head section is designed so that the oil can run off cleanly during forehead pouring.

Headrest for massages

With the crescent-shaped, tiltable, and removable headrest with face cradle, massage treatments can also be performed prone.

Pull-out arm support

The arm support can be mounted at two different heights or completely removed. There is enough space there if the customer is lying prone.

Practical storage shelf

On the surface below the table, you can store or set aside everything important for your treatments.

Massage Tables Accessories

Upholstery Covers

With the right covers your massage table will always be well protected against different types of stresses and strains. Our table-specific covers fit exactly the individual upholstery segments and thereby the function of the table is not limited.

Thanks to the high-quality terrycloth material, machine washing up to 60° C is possible and therefore hygienic cleaning is possible. Our covers are available in white, choco, macchiato and black.

It is best to order the right cover directly when you buy your table. Our team would be happy to help you decide!

Cover towel with face cradle, large

There is this special single-use cover towel with face cradle for improved hygiene. The special thing about it: its width not only protects the headrest but also the arm supports against contamination. Ideal for all our tables with lowerable arm supports or wide head sections. Size: 130 x 35 cm

Package with 50 items, Art. 45310

€ ---

Face cradle towels

Extra soft, slotted fleece disposable towel to protect the headrest; extremely practical and hygienic. Recommended for all headrests with face cradle. Size: 30 x 21 cm

Package with 100 items, Art. 45305

€ ---

Practical disposable towel specially for u-shaped headrests Thanks to the one-sided opening in the towel, it can be perfectly adapted to the massage head rest.

Package with 100 items, Art. 45301

€ ---

Roll holder including 1 paper roll

The optional paper roller provides you with a practical, disposable protection for your table. As needed, the 50 cm wide paper is unrolled and pulled over the lying surface. After use simply tear it off at the perforation line and discard. A neat thing!

Thermen Resorts Berendonck Netherlands

Treatment Beds

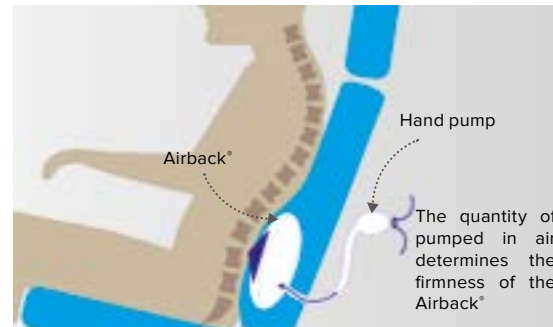

Our treatment beds are functional and flexible. The seats are versatile and adjustable and can be controlled by hand switch. Depending on the bed model, up to eight positions can be saved via memory function. The quality actuators from Linak have the "Spline" safety feature, which prevents the danger of crushing on moving parts. For non-actuator-driven table parts, Stabilus pneumatic springs provide easy adjustment without much effort.

The construction of the tables was designed taking ergonomic aspects into account. Numerous elaborate details, such as the optional Rotonde turning function, make the job easier. Pull-out head and foot sections provide comfort to customers of all body types.

A particular highlight is the Airback®, a lumbar support system whose adjustment is controlled by air pressure via a hand pump. Airback® comes standard in all treatment beds.

The treatment beds always come equipped with a white Gharieni

synthetic leather upholstery or white or choco PU. Here you can choose from a large number of colors in addition to the standard equipment. These can be found in the rear flap of the catalog. Choose your favorite from the Gharieni color chart or from the ex-

clusive Ferrari Stamskin top collection! On some bed models, you can put together your own personalized bed from up to three different colors. The casing is made from robust, easy-to-clean, and colorfast plastic. It is available on almost all models in addition to the standard white in titanium.

The options table will show you which equipment options you have that can be found on the corresponding beds. The individual options are then Seite <?> explained from there. You can find an extensive list of accessories at the end of each bed section.

Lina Select series

Gharieni Lina Select series

Slim, elegant design, maximum comfort and variability. – Our Lina Select series is the ultimate for you as a beautician! Because the innovative Lina's program is "Select," which combines optimal working and table comfort as well as individual versatility.

You can thus choose from the following versions of the one-piece upholstery cover with memory foam:

- Standard – the perfect "bottom layer" for massages
- Soft – for even more comfort, even with time-consuming cosmetic treatments

Particularly practical: On all models, the armrests for massage treatments feature double-sided upholstery and can be folded down. In addition, the head and foot sections can be pulled out and removed. And of course you can adjust the height, inclination, back, and leg sections electrically and store up to four positions. In addition, the bed can be equipped with the upholstery-warming heating system. All Lina Select models are also available as Podo version with segmented foot section.

Gharieni Lina Select Alu

The Lina Select Alu features a sophisticated designer aluminum base with upholstery or wood applications.

Features:

- Metal-clad base in the colors titanium, white, black-brown or aluminum
- With side wood or synthetic leather applications
- Pull-out and removable head and foot sections
- Electrical height, back, and seat adjustment
- Hand switch with locking and memory feature with four preset table positions
- Fold-back armrests upholstered on both sides
- Upholstery with a memory foam layer
- "Airback" lordosis support system integrated into the upholstery (see page 182)

- Height: 54-96 cm
- Bed surface length: max. 202 cm
- Width without/with armrests: 62/80 cm
- Lifting capacity: 200 kg
- Load capacity of the seat: 250 kg

Gharieni Lina Select Wood

Equipped with the same features as the other Lina Select models, the Lina Select Wood has a delicate, yet stable base. The foot is available in one of our numerous wood decors. This allows the bed to be perfectly adapted to your interior design – giving your workspace a particular bit of elegance.

Features:

- Delicate base in five standard decors (see page 23)
- Additional decors optionally available
- Pull-out and removable head and foot sections
- Height, back, seat inclination, and leg section electrically adjustable via hand switch
- Standard upholstery color: White and choco.
- Other colors from our color collection for an additional charge
- With a memory foam layer
- Fold-back armrests upholstered on both sides
- “Airback” lordosis support system integrated into the upholstery (see page 182)
- Hand switch with locking and memory feature with four preset table positions

Lina Select Wood
with Soft upholstery

Gharieni Lina Select Static

With its one-pillar technology and solid floor installation, the Lina Select Static looks particularly elegant. At the same time it gives you practical legroom with maximum stability. In addition, this model has the same features as the "Wood" and "Alu."

Features:

- Bolted to the floor for maximum stability and legroom
- Four-actuator
- Height, back, seat inclination, and leg section electrically adjustable via hand switch
- Pull-out and removable head and foot sections
- Standard upholstery color: White and choco.
- Other colors from our color collection for an additional charge
- With a memory foam layer
- Fold-back armrests upholstered on both sides
- "Airback" lordosis support system integrated into the upholstery (see page 182)
- Hand switch with locking and memory feature with four preset table positions

- Bed surface length: max. 202 cm
- Width without/with armrests: 62/80 cm
- Lifting capacity: 200 kg
- Load capacity of the seat: 250 kg

Lina Select series

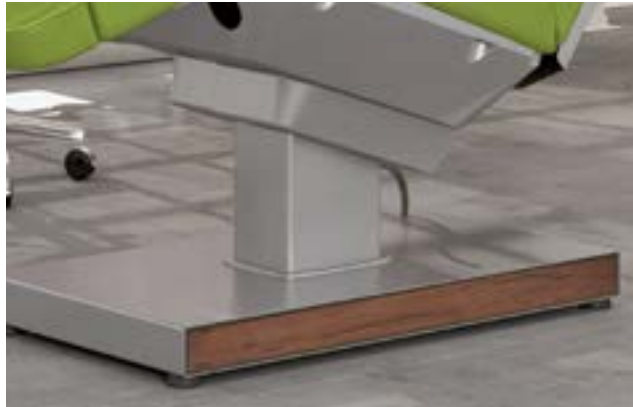

Extraordinarily variable

All of the Lina Select series models are extraordinarily versatile. The height is adjustable from 54-96 cm and the head and foot sections can each be pulled out by 10 cm. The backrest can be set up to 70°

and the seat can be tilted by 25°. In addition, the leg area can be tilted down by 75°. And for massage treatments, the double-upholstered arm supports can be folded down.

High-end application

The sides surfaces of the foot of the Lina Select Alu feature the same synthetic leather as the bed upholstery. Optionally, however, it is also possible to choose an elegant wood decor.

Lightweight, elegant, & stable

The foot of the Lina Select Wood looks elegant, but at the same time it is extremely stable. With a wood decor of your choice, the bed can be perfectly adapted to the ambience of your workspace.

Usable on both sides

Particularly practical: On all Lina Select models, the armrests feature double-sided upholstery and can be folded down. This allows them to be used for prone massage treatments.

Headrest with face cradle

In addition to the standard headrest, an optional headrest with an integrated face cradle is also available for our Lina Select models.

601 series

Gharieni 601

The Gharieni 601 combines the best features of a spa table and treatment bed in one: comfort, stability and practical handling are the main features of this double lifting column supported combination table. Whether cosmetic treatments, make-up, haircare, massages, pedicures or manicures, the 601 always performs well. The multifunctional, removable head and arm rests make it one of our most variable treatment tables.

Features:

- Double lifting column technology for extreme loads
- Fully electrically adjustable
- Upholstery of the treatment bed available in three widths: 75 cm (small), 80 cm (medium-small) and 85 cm (medium)
- Upholstery available in two thicknesses: standard and soft
- Three different headrests possible:
 1. Dual headrest with interchangeable face cradles
 2. U-shaped face cradle
 3. Standard headrest with face cradle
- Fold-away head rest for free access to the head and neck (e.g. for hair wash)
- Thermal heatable surface to keep clients cozy and comfortable.
- Swiveling, detachable side armrests for easy access
- Laterally swiveling and lowerable arm support at the head section for effective massages
- Can be operated via hand or foot switch
- Four preset and two freely storable memory positions
- 30 minutes automatic operation safety lock
- Mounting for magnifying lamps
- Mountings for manicure bowls under the lateral armrests
- Available in many different finishes and fully customizable to any décor.
- Also available as High Performance version with approx. 60% more lifting force and 25% higher speed

- Height: approx. 59 cm - 99 cm (Standard upholstery)
- Length: approx. 183 cm - 203 cm
- Width (without armrests): 75/80/85 cm
- Lifting capacity: 250 kg/400 kg (High Performance)
- Load capacity of the table surface: 300 kg / 450 kg (High Performance)

601 series

Practical & versatile

In terms of adjustability, versatility and ergonomics, the 601 meets the highest demands. The headrest can be tilted by $-90/+10^{\circ}$ and extended by up to 15 cm. Two lifting columns allow the height to be electrically adjusted from 59-99 cm, the back and foot sections can be

adjusted by 70° and 91° respectively, and the armrests can be swiveled back by 180° . The lying surface can be tilted by $\pm 25^{\circ}$ and extended by approx. 10 cm with the adjustable foot section.

Three different headrests

In addition to the standard headrest, the 601 can be equipped with two other variants: the Dual, with an exchangeable round or crescent-shaped face cradle or U-shaped headrest

Adjustable armrests

For optimal adaptation to the customer, the armrests can be moved outwards. Thus, the 601 offers even more comfort for every body type..

Castors for greater flexibility

The 601 is available with optional castors for maximum flexibility. They make it easier to move the chair, offer greater freedom of movement in the room, and enable quick adaptation to different working situations..

Holder for (magnifying) lamps

A surprising and handy feature is the extendable magnifying lamp holder made of stainless steel. Designed to fit our LED magnifying lamp, it simply disappears under the bed when not in use.

SPL Neo series

Gharieni SPL Neo series

If you are looking for a solid treatment bed, our "SPL Neo" is just right for you. With its four actuators, the bed can be adjusted as quickly as you want: From starting position to the classic treatment position, to the massage position, you can retrieve them simply by pressing a button.

With the "Standard", "XP" and "Soft" upholstery versions, the three beds offer different characteristics especially for your treatments. Fold-down armrests as well as a lower bed access height make it easier for shorter customers to step up. At the same time, the pull-out headrest and footrest offer taller people optimal comfort. The seat surface rotates thanks to the optional Rotonde function. This gives you even more flexibility when working. You can choose the color of the bed upholstery – for the best look to match the ambience of your workspace – from our large PU and synthetic leather collection.

The SPL Neo is also available as a Podo version.

Features:

- Four particularly quick actuators
- Height, inclination, as well as back and leg areas are electrically adjustable.
- Fold-down armrests
- Pull-out headrest and footrest
- "Airback" lordosis support system integrated into the upholstery (see page 182)
- Spline safety actuators to avoid the danger of crushing
- Optional Rotonde seat surface rotating function
- Bed surface available with Standard and Soft upholstery
- Upholstery made from PU (Soft version) or synthetic leather
- Standard upholstery color:
Synthetic leather: White. PU: White and Choco
- Other colors from our color collection for an additional charge
- Multicolor upholstery also possible
- Base in white or titanium

- Height: 59 cm – 100 cm
- Length: 144 cm – 203 cm
- Width without/with armrests: 62 / 80 cm
- Lifting capacity: 200 kg
- Load capacity of the seat: 250 kg

SPL Neo

4-actuator

from € ---

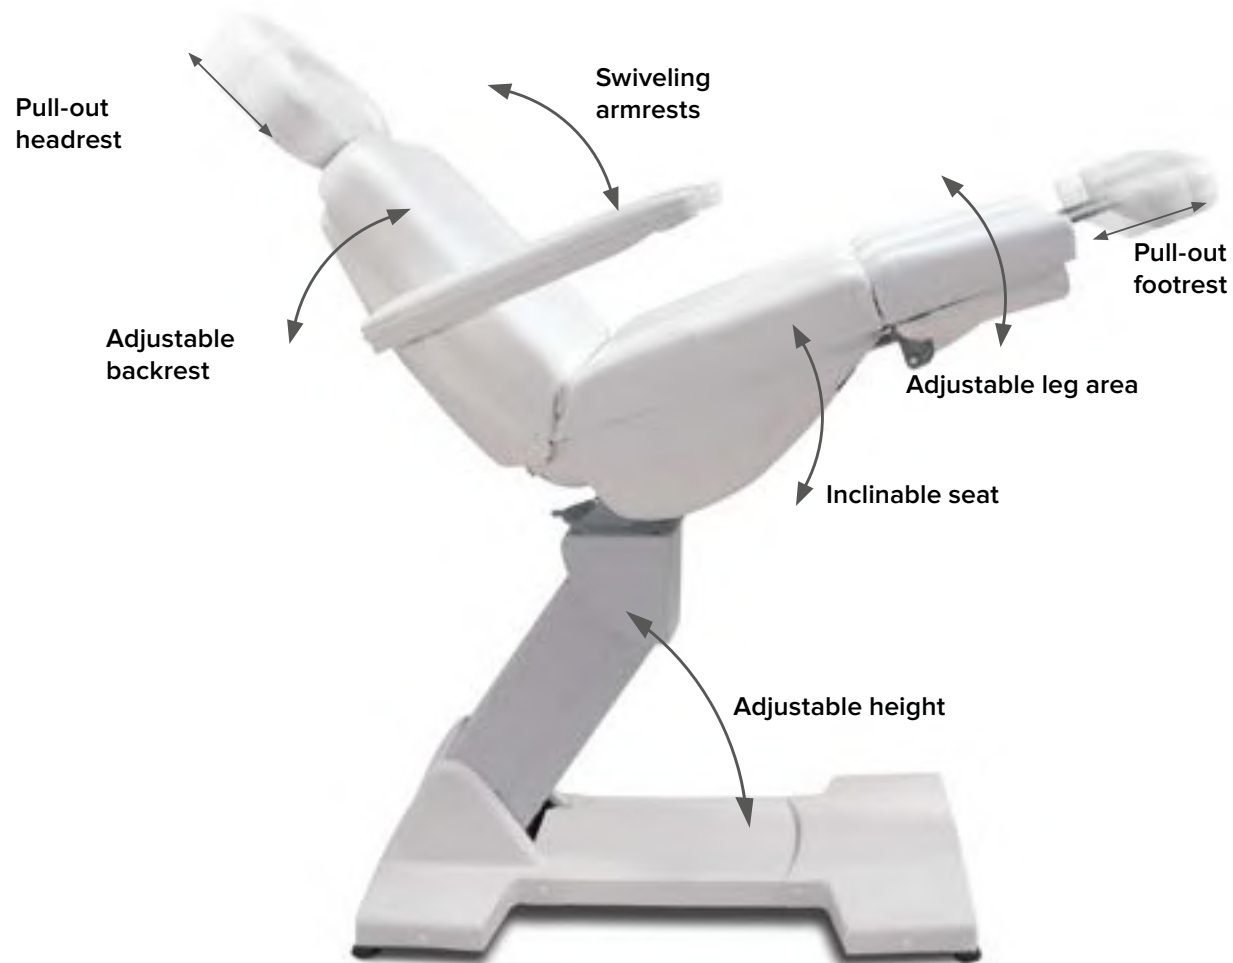

SPL Neo
with Standard upholstery

SPL Neo XP

SPL Neo with Soft upholstery

SPL Neo series

For all cosmetics treatments

The SPL Neo can be perfectly positioned for your cosmetic treatments. So you can adjust the chair height to 63-100 cm, set the backrest to 70°, tilt the seat by 25°, and adjust the leg range from

0 to -90°. Headrest and footrest can be extended by 10 cm and the armrests can be swiveled backwards.

Rotonde function

This feature allows the seat to be turned left or right by up to 180°. By means of the side-mounted locking it can be easily fixed in any position.

Headrest with XL extension

The adjustable and retractable XL extensions is a support surface for the arms, especially for prone body massages.

Manicure bowl

As with many other Gharieni treatment beds, the SPL Neo also allows the installation of a detachable manicure bowl on the armrest (Exception: Soft upholstery).

Footrest

This practical chrome-plated footrest protects the plastic casing of the base from mechanical wear and tear and dirt during head-side treatments.

Hydraulic series

Hydraulic models

Without actuators, but with total comfort: Our hydraulic models offer almost everything their siblings with actuators can. In the case of the PLS Cos and SL XP Hydraulic, the height, seat angle, backrest, and leg section can be adjusted using a pneumatic spring without much effort. The armrests can be swiveled backward for easier starting positions for customers; and the upholstery is available in many colors.

Features:

PLS Cos Hydraulic

- Height, seat inclination, back, and leg section adjustable via pneumatic spring
- Armrests fold backwards
- Inclined head section
- Seat rotates 360°
- Synthetic leather comfort upholstery
- Standard upholstery color: White. Other colors from our color collection for an additional charge
- Also available as a Podo version

SL XP Hydraulic

- Height, seat inclination, back, and leg section adjustable via pneumatic spring
- Armrests fold backwards
- Pull-out foot and head sections
- Seat rotates 360°
- "Airback" lordosis support system
- Full-length ergonomic synthetic leather upholstery
- Standard upholstery color: White. Other colors from our color collection for an additional charge
- Also available as a Podo version

PLS Cos Hydraulic

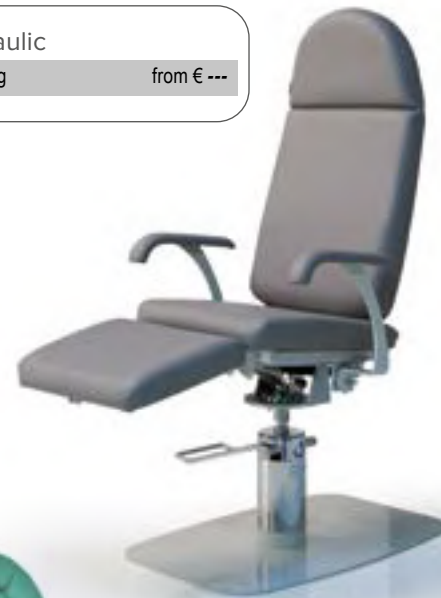

- Height: approx. 59-79 cm
- Length: max. 144-203 cm
- Width without/with armrest: approx. 49/68 cm
- (Recommended) lifting capacity: 300 kg
- Load capacity of the table surface: 300 kg

SL XP Hydraulic

- Height: approx. 64-83 cm
- Length: approx. 144-203 cm
- Width without/with armrest: approx. 62/83 cm
- (Recommended) lifting capacity: 300 kg
- Load capacity of the table surface: 300 kg

Treatment Beds Accessories

Upholstery Covers

With the right covers your massage table will always be well protected against different types of stresses and strains. Our table-specific covers fit exactly the individual upholstery segments and thereby the function of the table is not limited.

Thanks to the high-quality terrycloth material, machine washing up to 60° C is possible and therefore hygienic cleaning is possible. Our covers are available in white, choco, macchiato and black.

It is best to order the right cover directly when you buy your table. Our team would be happy to help you decide!

Dentalax Neck Rest

This little accessory supports the neck and helps to stabilize the head. This creates a more comfortable table experience while relieving the neck vertebra. We recommend the Dentalax for each of our treatment tables as an optimal supplement for the best lying comfort and an increase in treatment ergonomics. The neck rest is available to match the upholstery color of the table.

HST Trolley with
storable steamer

Gharieni Spa Trolley HST

Designed as an exclusive piece of furniture, this treatment unit not only offers a storable steamer with herbal diffuser, but also an FDS, or Foam Detecting System. This serves to shut off the steamer in the event of foaming by contamination. Also particularly practical are the swiveling steamer arm, a large storage space, an extendable tray, a drawer with subdivision, as well as a Hot Cabi compartment and a magnifying lamp holder. Equipped with four low-noise lightweight castors and available in numerous decors, the HST Spa Trolley is an indispensable and perfectly integrated work unit.

Features:

- Integrated steamer
- Swiveling steamer arm
- With herbal diffuser
- With FDS (Foam Detecting System) serves to shut off the steamer in the event of foaming by contamination.
- Pull-out tray
- Large storage space
- Drawer with subdivision
- Including Hot Cabi and magnifying lamp
- Hot Cabi compartment
- Magnifying lamp holder
- Storage compartment for Flex magnifying lamp
- Castors
- In numerous decors and different designs

- Height: 89 cm
- Width (closed): 50 cm
- Width (including steamer): 82 cm
- Depth (without handle): 48 cm
- Depth (including handle): 54 cm

Everything in one location

You'll see how practical the Spa Trolley is during your treatments: With its extendable tray, storage space, integrated steamer, magnifying lamp and Hot Cabi, it has everything you need for your cosmetic treatments. Thanks to its mobility, you have everything at hand during treatment. It doesn't get any more practical!

Storable steamer

For organization in your workspace: When not in use, simply let the steamer and magnifying lamp "disappear" into the back of the spa trolley.

Integrated Hot Cabi

Best organized: A Hot Cabi is integrated into the lower compartment of the HST. This means that your warm compresses are always on hand.

Spa Trolley GST

Gharieni Spa Trolley GST

This treatment unit is exclusive and practical in the form of a trolley. This piece of furniture offers everything that makes your job easier: a storable swivel-mounted steamer, a herbal diffuser, and the Foam Detecting System (FDS) to shut down the steamer in the event of foaming by contamination. Also, the large storage space with four drawers, which can be divided in different ways according to what you want, proves itself in all treatments.

In addition, the integrated Hot Cabi offers warm towels at hand. What's more, a magnifying lamp holder and a storage compartment for the Flex magnifying lamp make the Spa Trolley GST the optimal work partner for you and in any desired location at that! Thanks to the low-noise, lightweight castors, you can easily push the Spa Trolley anywhere you need it. And last, but not least: Available in numerous decors, the Spa Trolley GST can also be perfectly integrated into any studio or workspace interior.

Features:

- Integrated steamer with herbal diffuser
- FDS (Foam Detecting System) serves to shut off the steamer in the event of foaming by contamination.
- Swiveling steamer arm
- Large storage space
- Drawer with variable partitioning system
- Hot Cabi compartment
- Magnifying lamp holder
- Storage compartment for Flex magnifying lamp
- Castors
- In many decors
- Including Hot Cabi and magnifying lamp

- Height: approx. 117 cm
- Width (closed): approx. 70 cm
- Width (including steamer): approx. 109 cm
- Depth: 50 cm

Spa Trolley GST

Including steamer, Hot Cabi
and magnifying lamp

from € ---

Extensive storage space

With its numerous different drawers and compartments, the trolley offers perfect organization for any workspace.

For secure positioning

Thanks to the flexible drawer divider, the space in the drawers can be individually divided as needed. That way nothing can tip over when opening and closing drawers.

Drawer dividers

The changeable dividing interior of the drawers allows for convenient and clear organization of small instruments and preparations.

Steamer with many functions

The steamer is not only equipped with a herbal diffuser, but also with a Foam Detecting System (FDS). This shuts off foaming in the event of contamination.

Integrated steamer

As soon as you no longer need the steamer, you can stow it away in the Trolley. Simply swivel it into the appropriate storage compartment.

Practical with Hot Cabi

Thanks to the integrated Hot Cabi, warm towels and compresses are always at hand.

AluVap

Gharieni AluVap

The space-saving AluVap treatment unit is your ideal partner in professional cosmetics. Made of sturdy, high-quality aluminum, it offers all the functions for modern cosmetic treatments even in the smallest of spaces. Because of its modular structure, the device configuration can be put together individually. Four modules can be integrated as needed, such as Peeling, Vac/Spray, Iono, High-frequency, and Rotating Drawer. In addition, the steamer can be expanded by an aroma or herbal option

Another highlight is the LED colored light option. This LED technology turns the steamer into an exclusive "face bio sauna." Depending on the color choice, the light enhances the psychological well-being of your customers. Thus, depending on your needs, it can have a relaxing, regenerating, balancing, stress-relieving, or revitalizing effect.

Additional equipment extras also include an Ultrasound and a Hot/ Cold device, as well as a magnifying lamp in different versions.

Available standard in white, black-brown, or with a titanium, you can also choose from more than 200 RAL colors. This perfect treatment unit can thus also be color-matched to integrate into any workspace.

Features:

- Compact construction
- Slim Rotary-shaped design
- Aluminum body
- Modular construction
- Assembled according to your needs
- Up to four modules to choose from
- Large radius of action
- Easy-to-use
- Short heating-up phase
- Swiveling steamer arm
- Water supply via funnel from above
- Easy to remove water tank
- Felt ring for aroma treatment
- Herbal diffuser (optional)
- Can be expanded with additional devices, magnifying lamp, and other accessories
- Comes standard in white, black-brown, and with a titanium
- Other colors possible for an additional charge

- Height: approx. 100 cm
- Steamer arm reach: approx. 70 cm
- Base diameter: approx. 46 cm

from € ---

Shiro Dhara Trolley Junior

in chrome/titanium

from € ---

Gharieni

Shiro Dhara Trolley series

There are two models available for deep relaxing ayurvedic oil forehead pouring:

The Shiro Dhara Trolley Wood with a base featuring wood decor is equipped with a tray for various collection containers and an oil drainage device with collection glass. These elements are height adjustable.

On the Shiro Dhara Trolley Junior, the forehead pouring bowl has an adjustable valve. The arm and (on request several) trays are height adjustable; and the tray bottoms can be selected in wenge, glass, or wood.

Features

Shiro Dhara Trolley Wood:

- Base in wood decor
- With tray and oil drainage device including collection glass
- Different collection containers available
- Height-adjustable elements
- Castors
- Available in chrome colors and black-brown

Shiro Dhara Trolley Junior:

- For oil forehead pouring
- Trays and arm height adjustable
- Choose from glass or wenge wood for tray bottoms
- Forehead pouring bowl with adjustable valve and suspension device
- Expandable with two additional trays
- Brakable castors
- Available in chrome/titan

Accessories

Additional tray in glass or wood decor including holder € ---

- Height: approx. 178 cm
- Wood base width: approx. 55 cm
- Junior base width: approx. 70 cm

Elegant forehead pouring bowl

The forehead pouring bowl of the Shiro Dhara Trolley Junior is equipped with an adjustable valve. This makes it easy to regulate the flow rate. The holder for the forehead pouring bowl is height adjustable.

Oil collection device

The Shiro Dhara Trolley Wood includes an oil drainage device with collection glass... This makes it easy to collect and dispose of the returning oil – for convenient and clean work.

Oil bowl

The Shiro Dhara trolley collects the returning oil in a stainless steel bowl. The tray for the bowl is height adjustable and can be optionally equipped with glass or wood decor bottom.

Easy-rolling castors

The five lightweight castors of the Shiro-Dhara-Wood and Junior models ensure perfect mobility and stability. This way you can easily move the trolley anywhere you need it.

Gharieni GL Trolley series

The GL Trolleys are equipped with a practical pull-out shelf for various devices and three drawers. In different sizes, it offers you the storage space that you need for tidy work.

Comes standard in white or wenge, but other decors are also optionally possible. On request, the Trolley is also available with a magnifying lamp holder. Four large rubber castors, two of which are brakable, make the GL Trolley mobile

Features:

GL 60/45 Trolley

- Pull-out shelf for various devices
- Three drawers
- Four large rubber castors, of which two are brakable
- In five standard decors (see page 23), optional in other decors
- Optionally with magnifying lamp holder

GL Square Trolley

- Pull-out shelf for various devices
- Three drawers
- Four large rubber castors, of which two are brakable
- In five standard decors (see page 23), optional in other decors
- Optionally with magnifying lamp holder

Accessories

GL60 Trolley

- Height: 80 cm
- Width: 60 cm
- Depth: 40 cm

GL45 Trolley

- Height: 80 cm
- Width: 45 cm
- Depth: 40 cm

GL Square Trolley

- Height: 102 cm
- Width: 40 cm
- Depth: 42 cm

Removable storage shelf

The removable storage shelf provides space for devices or your work instruments.

Suitable for magnifying lamp

The optional magnifying lamp holder allows you to equip the trolley with the right lighting for your treatments.

Space for one Hot Cabi

The Trolley GL Square offers the possibility to integrate a Hot Cabi.

Spacious drawers

Three drawers provide ample storage space, so you can accommodate all the important things for your work.

Cube Trolley series

Cube Select Trolley

With castors	from € ---
Without castors	from € ---
Base in chrome, additional charge	+ € ---

Gharieni Cube Select

With the Cube Select trolley, you can choose between two equipment variants: a large-capacity drawer or two medium-sized drawers. In the version with smooth-running wheels, the Gharieni Cube Select can be moved wherever you need it.

With its noble metal-wood combination - from five standard decors and its metal base in white, titanium look, black-brown or optionally in chrome - this practical trolley looks extremely classy. It is also available in other décor variants on request.

Features:

- Optionally with a large drawer and two spacious inner surfaces or with two medium-sized drawers
- High-end metal-wood combination
- In five standard decors (see page 23), optional in other decors
- Metal base with round column in white, titanium, or black-brown
- Large lightweight castors
- Also without castors
- Optional metal base in chrome available
- Additional decor versions optional

Accessories

Magnifying lamp adapter, integrated, Art. 41812V2	€	---
Magnifying lamp adapter, side assembly, Art. 41804	€	---

- Height with castors: 81 cm
- Width: 41 cm
- Depth: 43 cm

Various drawers

With the Cube Select, you can choose between a large-capacity drawer with two spacious inner compartments or two medium-sized drawers.

Elegant metal base

The metal base with its slim, round column makes the trolley look very light. Available in white, black-brown, titanium, and chrome.

With or without castors

In addition to the large lightweight castors, the Cube Trolley can be equipped with a simple stationary stand.

Matching: Manicure table Cube

On page 258 in this catalog you will also find the matching manicure tables from our Cube series.

Vario series

Vario Select

With doors

from € ---

Without doors

from € ---

Gharieni Vario Series

The Vario Select trolleys offer a wide range of options for practical work in any location. The upper shelf can be swiveled to the side and the inner shelves can be mounted at different heights as required. Depending on your needs, a Hot Cabi or Hot Stone Warmer can also be optionally integrated into the Vario Square.

Our wide decor range also gives you the opportunity to adapt the trolley perfectly to your ambience.

Features:

- Available in two versions: with and without doors
- Upper shelf can be swiveled laterally
- Inner shelves can be mounted at different heights
- Installation of a Hot Cabi or Hot Stone Warmer optional
- In five standard decors (see page 23), optional in other decors
- Metal parts in white, titanium, or black-brown
- Special equipment possible
- with lightweight castors

- Height: 80 cm
- Width (closed): 70 cm
- Width (with open panels): 130 cm
- Depth: 43 cm

Swiveling shelves

The top compartment holds a Hot Cabi or a Hot Stone Warmer. The split cover can be swiveled sideways. This gives you access to the Hot Stone Warmer from the top.

Storage space

The shelves inside the cabinet are individually mountable. Instead of the Hot Stone Warmer, other devices such as our small Hot Cabi can be installed.

Lamica Trolley series

Lamica Decor Line Trolley

With 2 tray compartments	€ ---
With 3 tray compartments	€ ---

Lamica Wood Decor Trolley

With 2 tray compartments	from € ---
With 3 tray compartments	from € ---

Gharieni Lamica Trolley

Do you need a versatile trolley in your workspace? Then the Lamica model is just right for you! Because the trolley can be customized. This way you can choose from two or three shelves. In addition, it can be equipped with a sanitary container with holder.

The design can also be chosen as desired: The shelves are available with an elegant wood look or in classic white. The frame is available in titanium, black-brown, white or chrome; and the large lightweight castors are color-matched to it.

Features:

- With two or three shelves
- With railing
- In a sophisticated glass and wood look or in classical white
- Frame in titanium, black-brown, white or chrome-plated
- On large, color-matched lightweight castors
- Optionally with magnifying lamp holder,

Accessories

Mano

Mano manicure table

Glass top in white or black

from € ---

Gharieni Mano

This manicure table looks particularly light and elegant with its special curved glass top. The practical drawer container with its easy-open Tip-On compartments offers space for everything you need for a manicure. And of course, the manicure table also has an integrated lamp holder.

When it comes to design, the Mano leaves nothing to be desired. Thus you can choose its glass top in white or black and the metal parts in white, titanium, or black-brown. So that the Mano optimally matches the ambience of your workspace, we have a large collection of wood decors ready for you.

Features:

- Worktop made of special curved glass
- With drawer container
- Drawers with Tip-On-Technology
- With black or white glass top
- Container available in different wood decors
- Metal elements in white, titanium, black-brown
- Integrated lamp holder (without lamp)

Accessories

Slimline LED working light, Art. 41820

€

- Height: 79.5 cm
- Width: 129 cm
- Depth: 57 cm

For perfect lighting

The integrated lamp holder is suitable for our Slimline LED working light. This not only ensures optimal lighting, but also a visually compelling overall appearance.

Large amount of space

With three drawers, the Mano container provides ample space for all the tools you need for a manicure.

Curved glass top

The curved plate made of special glass in black or white looks light and sophisticated at the same time.

Just simply Tip-On

A slight pressure is all it takes and the drawers open quietly. As a result, no handles are needed. This creates a clean look.

Cube Select

Cube Select manicure table

Metal parts in standard colors	from € ---
Metal parts in chrome	+ € ---

Cube Select Duo manicure table

Metal parts in standard colors	from € ---
Metal parts in chrome	+ € ---

Gharieni Cube Select

The Cube Select manicure table looks very sophisticated with its metal-wood combination. With five standard decors and its round metal base in white, titanium, black-brown, or chrome (optional), it integrates into any workspace ambience. Upon request, it is additionally available in other decor versions.

Choose the manicure table with one maxi or two medium-sized drawers with soft-close.

Features:

- With one or two drawer containers
- Container with one maxi or two medium-sized drawers with soft-close.
- In five standard decors (see page 23), optional in other decors
- Metal elements in white, titanium, black-brown, or chrome (additional charge)

Storage space upon request

When equipping the container(s), you can choose between one large-capacity drawer with two spacious inner compartments or two medium-sized drawers.

Metal parts in chrome

In addition to the standard colors white, black-brown, and titanium, the bases of the Cube manicure table are also available in elegant chrome.

Perfectly combinable

For practical working and a uniform appearance, the Cube Select manicure table can be combined with the Cube Select Trolley (see page 248).

Manicure Table Cube Select

- Height: 81 cm
- Width: 125 cm
- Depth: 50 cm

Manicure Table Cube Select Duo

- Height: 81 cm

Stools & Chairs

Stools & Chairs

Not only your customers should be comfortable during the treatment! In order to be able to work comfortably and efficiently, the working chair factor plays a role that is not to be underestimated. Here, the focus is on ergonomics. This includes not only a comfortable seat surface, but also optimum adjustability. Our stools and chairs offer you all these features. Find exactly the right chair to suit you and your work from our wide range of products.

We also don't come up short in terms of looks. Optionally, you can configure our working chairs, in addition to the standard white, in different colors to suit your personal ambience. In addition, with our four castor base versions, we offer optimum possibilities to configure your personal working chair. Optional extras like our Floating feature and Airback-Technology round out our offering.

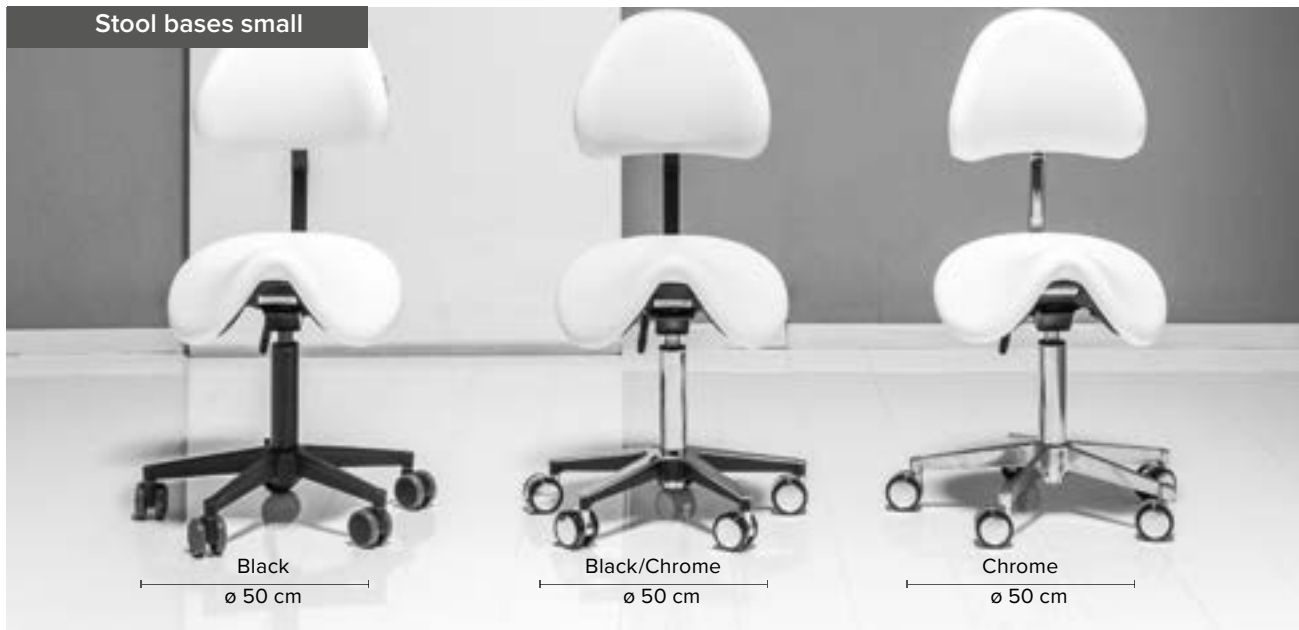

Features:

- Stools and chairs come standard with white upholstery and black base
- Synthetic leather cover optional in various colors from the current Gharieni or Ferrari Stamskin color collection (see catalog cover)
- Rotatable seat
- Rubber castors with Roll-Stop function
- Comfortable upholstery
- Washable and durable cover
- Pneumatic height adjustment
- 5-castor safety base
- Six different castor base versions

Chair/Stool “Anatomical saddle-seat”

Our specialists when it comes to ergonomics are the anatomical saddle-seat stools and chairs. Thanks to their specially curved seat design in the Large and Small versions, the saddle-shaped seats ensure optimal pressure distribution in the buttock-area while relieving the strain on the thighs. The “For Men” model, with its recess in the front part of the seat, also caters to the special ergonomic needs of men.

The “floating” version also offers a seat that swings in all directions to maintain the mobility of the pelvis and promote the flexibility of the discs.

All models have the obligatory height adjustment and the five-caster safety base. The chair model is also equipped with an adjustable backrest and a tilting seat.

Features:

- Anatomically-shaped rotating saddle-seat
- Pneumatic height adjustment
- Comfortable upholstery
- Chair version with inclinable seat to relieve pressure on the thighs
- “Air” chair version with air chambers to relieve pressure
- Washable and durable cover
- Synthetic leather cover in white
- 5-caster safety base
- Rubber castors with Roll-Stop function
- Optional with floating equipment: swinging, adaptable to the movement of the seat, in two types of firmness (soft and medium)
- Base in three colors: Black (standard), titanium, or chrome
- 5 base versions (see page 263)

Stools & Chairs

Chair/Stool “Saddle-seat”

Our saddle-seat chairs or stools have a specially shaped seat similar to a bicycle. The advantage here: The recesses on the seat minimize the unpleasant pressure of the seat on the thighs.

The durable synthetic leather upholstery is available in different colors (see color chart in the cover)

All models have the obligatory height adjustment and the five-caster safety base. The chair model is also equipped with an adjustable backrest as well as a tilting seat.

Features:

- 50-62 cm height adjustment
- Saddle-shaped, rotating, flat seat
- Pneumatic height adjustment
- Chair version optionally with inclinable seat to relieve pressure on the thighs
- Comfortable upholstery
- Washable and durable cover
- Synthetic leather cover in white, additional colors optional
- 5-caster safety base
- Rubber castors with Roll-Stop function
- Base in three colors: Black (standard), titanium, or chrome
- 5 base versions (see page 263)

“Round” chair/stool

Our round stools and chairs feature comfortable and robust upholstery.

The durable synthetic leather cover is available in different colors (see color chart in the cover)

All models have the obligatory height adjustment and the five-caster safety base. The chair model is also equipped with an adjustable backrest as well as a tilting seat.

Features:

- 50-62 cm height adjustment
- Round, rotating, flat seat
- Pneumatic height adjustment
- Chair version optionally with inclinable seat to relieve pressure on the thighs
- Comfortable upholstery
- Washable and durable cover
- Synthetic leather cover in white, additional colors optional
- 5-caster safety base
- Rubber castors with Roll-Stop function
- Base in three colors: Black (standard), titanium, or chrome
- 5 base versions (see page 263)

“Oval” chair

With its wider seat and curved, height-adjustable backrest, the chair with oval seat provides comfort. In addition, it can be equipped with the Air-Floating system, which with its air chambers allows the adjustment of the seat upholstery to your personal needs. The optional seat tilt adjustment provides relief for the thighs.

Features:

- Pneumatic height adjustment of 50-63 cm
- Rotating oval seat
- Optionally with inclinable seat to relieve pressure on the thighs
- Washable and durable cover
- Synthetic leather cover in white or color
- Optionally with Air-Floating System (AFS) for more comfort and to avoid pressure points
- 5-caster safety base
- Rubber castors with Roll-Stop function
- Base in three colors: Black (standard), titanium, or chrome)
- 5 base versions (see page 263)

“Dental type” chair

With this functional chair, the backrest can also be moved to the left and right while seated and can therefore also be used as an armrest.

The chair is height-adjustable via a lever and has a 5-caster safety base.

Features:

- Pneumatic height adjustment of 50-62 cm
- Round seat and rotating backrest
- Comfortable upholstery and upholstered backrest
- Optional with floating equipment: swinging, adaptable to the movement of the seat, in two types of firmness
- Durable cover in white or color
- 5-caster safety base
- Rubber castors with Roll-Stop function
- Standard with black base, optional in titanium or chrome
- 5 base versions (see page 263)

“Square” chair

A modern design with clean lines and extremely comfortable – this is the “Square” Chair. Whether as a working chair with and without a backrest or as a makeup chair, the Square offers an exclusive solution for most requirements. The robust, easy-to-clean synthetic leather upholstery is available as standard in white or optionally in other colors from our current color charts (see cover). In addition to the obligatory height adjustment, the makeup chair has a footrest ring for optimum seating comfort.

Features:

- In three chair versions: Working chair with and without armrests or makeup chair
- Pneumatic height adjustment from 47-63 cm (working chair), approx. 57-83 cm (makeup chair)
- Rotating, angular chair
- Comfortable upholstery and backrest
- Armrests
- Washable and durable cover
- Synthetic leather cover in white or color
- Optionally with castors or fixed base
- Rubber castors with Roll-Stop function
